

EXCEED Seated Bench Press

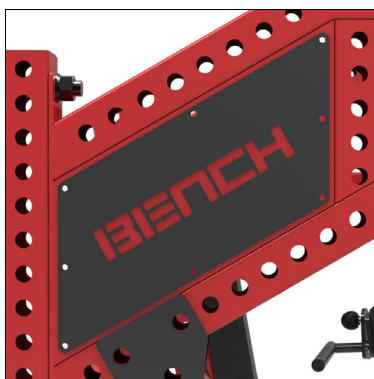

Description

Maximize your upper body strength with our Exceed Plate Seated Bench Press Machine. With adjustable seat height, back rest angles and handles, you can customize the machine to fit your body and workout needs. The Exceed Seated Bench Press' plate loaded design allows for customizable resistance levels, making it perfect for all fitness levels. Built Strong with safety and stability in mind, the Exceed Seated Bench Press also comes with added plate storage making it a great addition to any home gym or commercial fitness facility.

At Bench Fitness, we strive to exceed expectations, and our Exceed Plate loaded machines exemplify this philosophy. You can customize the complete range of machines with an extensive range of colors and even add your own branding for a personalized touch. Additionally, all Exceed plate loaded machines are compatible with our REVOLVE band pegs, which can help you take your workouts to the next level.
