CONCRETE JUNGLE

Tropical Architecture and its Surprising Origins

Editor: gestalten
Features: Full color, hardcover,
linen quarter-binding, stitch bound,
304 pages, 24.5 × 33 cm, 9 ¾ ×13 inches
Price: € 60 (D) £55 \$90 (US)

Concrete Jungle presents some of the most exciting tropical houses and tells the surprising story of lush modernist architecture.

The liaison of rational architecture with the organic lushness of tropical vegetation has created some of the most visionary and futuristic buildings we know. Here, nature tames and bends the rough materials and austere lines, becoming one with the architecture.

Based on the concepts of modernist style and Bauhaus aesthetics, countries in tropical regions like Latin America, Asia, and Africa have developed their own unique visions of an international style and architecture that are both timeless and desirable, and they continue to be highly influential around the globe.

Concrete Jungle embarks on a journey through private works of architects that established the roots of the tropical modernist style and those who carry it on, from iconic visionaries, such as Luis Barragán and Lina Bo Bardi, to our contemporary Isay Weinfeld and others.

"Concrete Jungle is the new book published by gestalten that takes readers on a journey to discover the best architecture that embraces the 'Tropical Modernist' style and the designers who pioneered this aesthetic." MUSE MAGAZINE (US)

Norm Architects' sense of humane simplicity helps to shape environments that feel just as good as they look.

Guided by the purpose of wellbeing, the essence of Norm Architects' style is balance: richness focused by restraint, simplicity imbued with warmth, complexity heightened by order. Be it architecture, interiors, or furniture, Norm's unique brand of soft minimalism speaks to the mind as much as the body, creating and curating spaces for all.

The first self-curated monograph by Norm Architects, *Soft Minimal* showcases a range of works which facilitated their establishment as key figures within Nordic design. Presenting residential and commercial projects throughout Scandinavia, Italy and Japan, Norm reflects on Nordic traditions, modernist principles, and the importance of natural materials. Exploring a creative process that makes the visual speak to all senses, the book becomes insightful, inspirational, and deeply poetic.

Situated in one of Copenhagen's oldest streets, NORM ARCHITECTS are deeply embedded in their context and apply their principles in projects worldwide. Their expertise lies in finding that sweet spot between having nothing left to add, or to take away.

"A tactical object, a manifesto, and a sourcebook—all in one—the publication seeks to highlight the values and design principles guiding the Danish practice while providing aesthetic inspiration to those that turn its pages." IGNANT (US)

Famous artists are commenting on politics and raising awareness on issues like authoritarian regimes, sustainability, climate change, diversity and immigration.

Art has always had an intense relationship with activism and politics. It has a unique ability to communicate, persuade, generate controversy, raise awareness, and encourage people to question their preconceptions and beliefs. In these tumultuous times, with democracy being challenged from all sides, and with issues such as climate change, extremism, racism, and gender inequality ever higher on the news agenda, contemporary artists have no lack of inspiration.

Celebrating the centenary and legacy of Charley Harper, a master of mid-century American illustration.

Ladybugs, dogs, owls, otters: Charley Harper's geometric illustrations are more than a source of delight. With a never-ending curiosity for the natural world Harper developed a unique style that influenced generations of artists and designers.

Wild Life celebrates the centenary and legacy of Charley Harper, a master of midcentury American illustration: a vast collection of works originally created as posters, magazine covers, murals, and more. Compiled by design writer Margaret Rhodes and Brett Harper, this definitive monograph offers a glimpse into Harper's creative universe and considers him anew in different contexts: as a student, a professional artist, a husband, an honorary naturalist, and a conservationist.

BRETT HARPER who wrote the preface and is the co-editor of Wild Life—The Life and Work of Charley Harper is the artist's son. He leads the Charley Harper Art Studio, which is dedicated to preserving and promoting the American illustrator's work.

MARGARET RHODES is an independent writer and editor specializing in design. She previously worked in-house at New York Magazine, WIRED, and Fast Company.

"Ladybugs, cardinals, cats, and otters may be the first creatures that come to mind when you consider the delightful art of Charley Harper. But the story of Harper's art and life consists of so much more. Wild Life: The Life and Work of Charley Harper, a new book by Brett Harper, Margaret Rhodes and Berlin-based publisher gestalten has been released in time for Harper's 100th birthday on Aug. 4."

Rollo has bounded in all covered in mud. planting his paws all over the McQueen. I don't know where to look, the shame of association is too much to bear... Who will rid me of this turbulent hound?

THE ESSENCE

Welcome to Jaime Hayon's beautiful world: mysterious ceramic creatures, finely crafted objects, and the warm pastel colors of his Mediterranean home.

This title is a compilation of Jaime Hayon's famed work exploring his relationship with materials, his theory of color, his technique, inspiration, and creative process.

Jaime's style and vision have come to be associated with the most prestigious interior design for hotels, restaurants, and galleries. Blurring the lines between art, decoration, and design, Hayon's creations are full of playfulness and optimism. Jaime Hayon is the follow up to gestalten's highly successful book, Works.

Spanish artist and designer, JAIME HAYON founded Hayon Studio in 2001. He has brought his unique vision in contemporary design to the likes of Swarovski, Fritz Hansen, &Tradition, or Baccarat, as well as executing complete interiors for leading hospitality and cultural venues. Based in Valencia, Spain, he has been lauded one of the most influential creators of the last decade and as a "visionary" creative icon by TIME magazine.

"In 2017, he designed the decoration of the Hotel Barceló Torre in Madrid. A major achievement at the meeting between the different disciplines he practices. It is this rich and personal repertoire that the book published by gestalten presents." MILK DECORATION (France)

"The pages show mysterious ceramic creatures, carefully crafted design objects, domestic spaces inspired in colors by his Mediterranean soul, but also important interior design projects conceived for hotels, restaurants, galleries (...)" ELLE DECOR (Italy)

Could you live permanently on the road? When all your belongings fit in a few bags, your office is a roadside diner, and your home is a meandering route from Canada to the southern tip of Argentina?

In Two Years on a Bike, Martijn Doolaard puts it to the test. Strapping the necessities onto his bicycle, he ventures into desolate wastelands and sojourns in vast cities, exploring what it means to be at home in the world while embracing a life of minimalism and long-term travel. Along the winding roads of California's coasts, the impenetrable jungles of Mexico, the ever-higher passes of the Andes Mountains, and the severe alpine forests of Patagonia, Doolaard eschews comfort and convention for the sake of documenting life on one of the world's most breathtaking—and notorious—routes.

"Traveling is not the only answer to those looking for meaning, but I think it is one of the best ways to ask what normal, and special, means to oneself. Simply leaving the house and going somewhere has the power to turn your life in another direction. Small, bold choices suddenly spin the wheel. Don't brake right away." ELLE (Italy)

RELEASE (EUROPE & UK): AUGUST 2023 RELEASE (INTERNATIONAL): SEPTEMBER 2023

Cooking on an open fire is the most archaic of all cooking methods. This cookbook provides many varied recipes as well as practical tips.

For decades, open-fire cooking has been considered a pastime reserved for scouts and elite soldiers, leaving the rest of us to grill sausages on the terrace. But open-fire cooking is for everyone. It is sensuous and impractical in the best sense of the word. It is as much about the time spent making the food as it is about eating it.

Cooking on Fire is full of delicious firecooked recipes requiring varying degrees of effort. It teaches you how to build and light campfires, different campfire cooking techniques, the equipment you will need (if any), and everything else you need to know.

You'll find classic recipes like Chilli Con Carne and roasted chestnuts but also more challenging dishes that require a fair amount of time—which is a good thing. Because if there is one thing the authors would like to accomplish with this book, it is to give you, the reader, the freedom to sit down by the fire, and with food as the excuse, look into the flames, and relax.

WHAT TO EXPECT

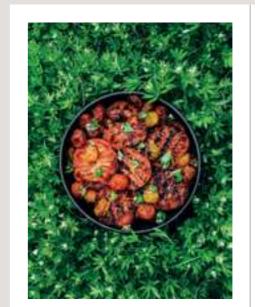

- A cookbook for anyone who likes to spend long hours outside
- A great variety of recipes, tips on how to build the perfect fire, and which tools, and utensils to choose
- · Lots of ideas, what you can cook over fires, besides steaks and delicious sausages

EVA H. TRAM worked as a gastronomical writer and editor for magazines and guides for several years before she almost accidentally picked up the camera and let her joy of food vitalise in photos as well. NICOLAI TRAM worked as a chef in top restaurants in and out of Denmark before leaving the industry to be in television instead.

A modern approach to Mediterranean cuisine using seasonal, affordable, easy-to-find ingredients.

Provence is a feast for the senses that epitomises the French art of slow living. At the heart of it, there is always a table. In this book, cook Pauline Chardin shares over 50 of her delicious, healthy, and—best of all—easy recipes that are structured along the seasons. This is more than just a cookbook. With a keen sense for design, Chardin knows that the eye takes the first bite.

A Spoonful of Sun lavishes us with aesthetic pleasures too, taking us around the house Chardin designed for herself, into the irresistible surrounds of her Provençal home, and back to what matters most: the food on the table.

PAULINE CHARDIN is a French creative director, food expert, stylist, and photographer. Her work and lifestyle have been featured in publications such as *Milk Magazine*, AD, or *Ignant*. She lives in Provence, in a house she designed with her partner.

"After a life as a traveler on the sets of fashion and design, Pauline Chardin left Paris for a country house in the Provencal Drôme that she designed as an observatory, large panoramic windows all around, to enjoy, and capture, the changing lights and colors. For her first book, A Spoonful of Sun, she photographed and cooked for a whole year all the seasons. And, surprise!, she (re)discovered that there are far more than four." ELLE weekly (Italy)

"(...) where the Mediterranean diet meets design."

DWELL

Uncover the beauty of the changing seasons through a wide range of delicious, gluten-free recipes!

Quality food has the ability to awaken our senses, a concept well-known to photographer and food-stylist-turned cooks, Laura and Nora. Through Our Food Stories, the pair have made it their mission to attain these delights through gluten-free, vegetarian, and healthy cooking, supporting the opinion that where we eat matters just as much as what. When Laura and Nora lay out a table, the centerpiece and the dishes intertwine to provide a new found connection and appreciation for the ever-changing offerings of nature.

Bursting with delicious recipes built upon seasonal ingredients, A Year With Our Food Stories is fundamentally a cookbook, however it offers so much more. Stunning visuals of kitchens, tables set up by cozy fires, or picnic blankets laid out on flowery meadows provide inspiration on how best to reflect the varying flavors of the seasons in the settings within which we consume them. This is a book for food lovers, with an appreciation for taste in all its forms.

OUR FOOD STORIES is one of the most popular contemporary food blogs. Founded by photographer Laura Muthesius and food stylist Nora Eisermann, their Food Stories journey began when they struggled to find a cake that was both delicious, and gluten free. With a passion for cooking and interior design, they share their recipes and visual inspiration for the kitchen and the home to more than a million followers worldwide.
