

GAS CURVED SHAFT TRIMMERS

STIHL grass trimmers and brushcutters quickly tame long grass and undergrowth. These machines can be fitted with the appropriate cutting tool for all jobs from mowing small areas of grass to thinning out overgrown thickets.

BENEFITS OF CURVED SHAFTS

Curved shaft trimmers are easier to manoeuvre and more comfortable to use by homeowners. These trimmers are lighter and weigh less than a straight shaft trimmer. In addition, many homeowners find the shorter length of a curved shaft trimmer is more convenient to operate.

GAS STRAIGHT SHAFT BRUSHCUTTERS

BENEFITS OF STRAIGHT SHAFTS

Straight shaft brushcutters equipped with a loop handle are the choice of lawn care professionals and large property owners. They have more power, a longer reach and are better able to manage heavy brush and thicker weeds when equipped with the proper cutting tools.

GAS BACKPACK BLOWERS

STIHL has made orange even greener by reducing emissions and noise compared to previous models. Our lightweight **backpack blowers** are built on a padded polymer frame with adjustable straps and a foot pad for smooth, stable starts. Control is in the palm of your hand with the joystick handle and stop switch that decreases the chance of accidental shutoff. Clear your path quickly and quietly and save your back with a comfortable STIHL backpack blower.
