

# Bottle Size Usage Guide

**10ml BOTTLES** are intended for everyday use. They have a child-resistant aromatherapy lid that will restrict the oxygen getting into the bottle- thus protecting your essential oil from air. This bottle will last about 2-6 months at a usage rate of 1-3 drops per day. Be careful not to touch the aromatherapy dropper in the lid of the essential oil to other surfaces to avoid cross contamination.

**50ml BOTTLES** are intended for everyday use for a family. It has a child-resistant aromatherapy lid that will restrict the oxygen getting into the bottle-thus protecting your essential oil from the air. This bottle will last 6 months-1 year depending on usage. Be careful not to touch the aromatherapy dropper in the lid of the essential oil to other surfaces to avoid cross contamination.

**4oz, 8oz and 16oz BOTTLES** are intended ONLY for refilling smaller bottles/commercial applications. They are not intended for daily use! The lid does not protect from oxygen so repeated daily opening can affect integrity of the essential oil. They do not have a child-resistant lid. Store product away from direct sunlight with lids tightened and in a location inaccessible by children.

---

4, 8 and 16 ounce bottles need to be  
\*burped every once in a while.  
Otherwise the bottle may crack or burst.

\*Burped - Opened to let  
the air pressure equalize.
