Guidelines for Designing Your Prefinished Parquet

- 2) Some patterns can only be made from certain collections. Refer to the chart below for availability.
- 3) **MINIMUM ORDER SIZE: 200 sq.ft.**

PARQUET - PROGRAM DETAILS

SPECIFICATIONS

All Monarch Plank Parquets are prefinished (unless requested unfinished) and ready for glue-down installation.

Each individual piece within the pattern is milled with tongue & groove prior to assembly, for maximum strength & integrity.

Chevron, herringbone, continuous patterns and square panels all have tongue & groove edges for easy installation - no splines or biscuits required.

Refer to the individual Monarch Plank collection you've selected for details on thickness, coating, adhesive, etc.

CUSTOMIZATION

Custom sizes and patterns available. Setup charges apply to all custom orders.

Drawings required for unique patterns (PDF, DWG or DXF). We welcome your ideas!

Note: because we are cutting from prefinished flooring of a particular width, when developing custom patterns and sizes, a small change in size can have a dramatic impact on yield, and therefore cost. We invite you to work with our staff to fine tune a pattern that maximizes value within your design parameters.

SAMPLES

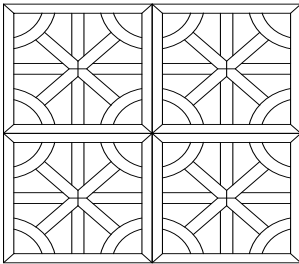

Life-size line drawings (for scale) of each pattern along with color chips are available upon request at no charge.

Fully Fabricated Sample Panels: \$500/panel (or 9 sf) for standard patterns, \$800/panel (or 9 sf) for custom patterns & sizes.

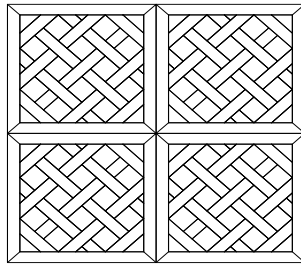

For all sample requests and custom inquiries, please contact parquet@galleher.com
