SERVIZIO CORSE

DEVELOPED AND TESTED WITH THE PROS

Just like INEOS Grenadiers, we leave nothing to chance, and we share the same focus on results-driven innovation in everything we do. The race clothing is the result of CFD modeling followed by extensive pattern engineering and fabric research, then further testing in the wind tunnel and on the road. And those products in the collection that are not made for WorldTour racing are still heavily influenced by the feedback and knowledge we acquire from working with the pros.

With Castelli Servizio Corse you can have the exact same pieces as the professional athletes. Not less—expensive replicas, but the exact same pieces made using the same fabrics, and components, with the same fit and finish, by the same people who produce the pieces you see on the pros racing in the WorldTour.
