

OUR LINE ON QUALITY

At FSR, quality and innovation aren't just words to us, they're our philosophy. They're the reason we do business in the first place, because we're out there doing it with you. We understand how important it is to have things built intelligently, intuitively and ready for the long haul, so our team focuses on every detail, rigorously testing and researching to deliver the most superior products. From the tough, lightweight frame, to industry-leading fabrics, to the superior sewing and assembly, you can rest assured every feature is engineered for endless adventures and seamless function.

DESIGN

Every Adventure Series tent is designed to maximize your outdoor experience. Our thoughtful design saves you set-up time, widens your windows and expands entries because we know that the value of quality goes beyond materials that endure – good design is part of making memories that last.

STRUCTURE

Our tents are built upon our signature T-slot extruded aluminum flooring system that provides an exceptional strength to weight ratio, maximum mounting options, and easy installation on your vehicle's rack.

SHELTER

Protection from storms, sun and no-see-ums, we construct every tent to hold up to the elements. We select the most durable fabrics and engineer our rugged framing to withstand heavy winds, use and weather while giving you the ultimate place to relax.

FEATURES

- 1 210D poly-oxford ripstop rain-fly fabric, protected with 2-mil polyurethane and silver coating
- 2 190g poly-cotton ripstop body fabric, protected with 2-mil polyurethane coating
- 3 Adjustable vents regulate airflow for easy comfort control
