

Thank you for choosing “AM studio” production! Our continued commitment lies in the complete satisfaction of each and every product we produce and deliver to our customers.

The main material Art glass studio “AM studio” works with for several decades is glass - everlasting material that, if properly used and cared, will serve you for a lifetime, it does not change shape or color, does not succumb to the processes of corrosion and putrefaction, it can only be transformed when the earth is on fire.

MIRROR CARE AND CLEANING INSTRUCTIONS

High quality mirrors from “AM studio” handcrafted collection deserve to be taken care of. Get more usage out of yours by studying up on this cleaning and care tips. Failure to properly clean mirrors can result in damage to the mirrored surface and deterioration of the optical quality of the mirror reflectance.

- Mirrors should be stored in a dry, well ventilated area, free of chemical fumes and away from high heat sources.
- Care should always be taken to avoid getting the edges of the mirror wet with any liquid or substance. This can result in damage to the mirror edges, commonly called “black edge”. Should mirror edges become wet, they should be dried off immediately.
- The very best and safest cleaner for a mirror is clean, warm water used with a soft microfiber cloth. This reduces the chances of scratching the mirror surface.
- Do not use acid, alkali or vinegar commercial mirror cleaners for mirror cleanup after installation. Either substance can attack the front surface and edges as well as the backing of the mirror. No abrasive cleaners should ever be used on any mirror surface.
- Do not spray cleaners directly on the mirror. Apply cleaner directly to a soft microfiber cloth and then wipe the mirror. This will help prevent the cleaner from contacting the edges of the mirror and damaging them.
- Make sure all joints and edges are dry so that no liquid or cleaner comes into contact with the edges and backing.

Our 2-year manufacturer warranty offers our customers peace of mind knowing that our products are guaranteed to be free of defects — in both materials and workmanship. In order to be eligible for the warranty, the product must be installed, cleaned and cared in accordance with the accompanying Installation Instructions and Care and cleaning Instructions. We stand by our products. If something goes wrong, we do our best to help solve the problem.

Sincerely,
“AM studio” team
