

Pam's Hexie Coaster or Pot Holder

Using whatever size hexagon you would like to use- cut **8** of that size. Fold 6 of the hexie in half, and lay them onto the leftover hexie, on the right side of the fabric. Lay them around in a clock wise direction, overlapping as you go. Sew around the outer edge of hexagon, securing them all. Flip your work right side out. You can top stitch around the outer edge if you like.
