

Sunshine Sheep

Supplies you will need:

Towel you like

Small pieces of wool in these colors- cream, black, yellow, orange, green and pink

Trace the designs to get them ready for the wool. Using whatever method you like, we used freezer paper. You can staple your pieces to the towel, until you get your stitching done. We used matching threads, with each piece of wool. But if you'd like, you can use the same colored thread for everything. You can add whatever stitches you'd like to the center of the flowers; french knots, lazy daisy or anything. The sheep had french knot eyes, and there were french knots in the middle of the flowers. The sun had some long stitches, that were supposed to look like sun rays, on it as well. Please make any changes that you like!
