

Spacing Tools

Models 420-S / 420

OVERVIEW

Two sizes of Sawyer's Spacing Tools spread the welding gap to the exact desired width, accommodating a range of small to large diameter pipe. The Spacing Tool also has a longer blade space and a gradual taper. Spacing wedges are traditionally made of hardened spring steel; through a different hardening process, we are able to get a harder wedge that is not brittle. Spacing Tools and Short Spacing Tools work in conjunction with our range of clamps to optimize any pipe fit up requirement.

FEATURES AND BENEFITS

- Quickly obtain exact weld gap
- Spacing Tool has a maximum thickness of 1/4"
- Short Spacing Tool has a maximum thickness of 3/16"
- Tapers to a chiseled point
- Special process hardens steel; will not bend or mushroom
- Hard-wearing and precision machined

ESTIMATED SHIPPING WEIGHT

| Model No. | Description | Dimensions | Weight |
|-----------|--------------------------------|------------------------|-------------------|
| 420-S | Short Spacing Tool | 4" x 3/4" x 3/16" | 1.9 oz. 0.053 kg. |
| 420 | Spacing Tool | 8-3/4" x 1-3/4" x 1/4" | 14 oz. 0.396 kg. |
| 420-Box | Box of 20 Spacing Wedges | 11" x 7" x 5" | 18 lbs. 288 kg. |
| 420-S-Box | Box of 50 Short Spacing Wedges | 11" x 7" x 5" | 7 lbs. 112 kg. |
