208V 3Ph	58.7A	40% @ 85A		
460/575V 3Ph	26A / 23.8A	80% @ 85A		

The **Crossfire Invercut 85HD** is a heavy duty, high output plasma cutting system designed to deliver top performance where it is needed, whether in the garage, job site, or shop. Flexible input power and built-in mechanized capability add to the possible uses mean the system can quickly go from handheld portable cutting to being used on a CNC cutting table.

EASY TO USE

- **4.3" LCD Display** Provides a clear view on settings and parameters
- **Simple Adjustment** Of current, gas flow and cutting mode
- **Grid Cutting Mode** For cutting expanded metal mesh and grates
- **Easy Connect Torch** With retaining clip to ensure torch is not accidentally disconnected

FEATURES

- 3/4" Piercing and clean cut capacity
- 1-1/8" Maximum sever cut
- Cut a variety of ferrous and nonferrous material
- Compact power source with built-in lifting handles

INCLUDES

- 26' (8m) Thermacut 105TTM Torch
- 10' (3m) Ground clamp and work lead
- Spare Parts Kit
