The exciting new 3 in 1 Crossfire TRION 210X is an innovative single phase, 200 Amp multi-process machine featuring the very latest in technology and operator appeal. Unlike many multi-process welders available today, the TRION 210X does not compromise weld performance in any output setting. Novice and professional welders alike will appreciate its quick, intuitive set up procedure and 20% duty cycle. Through the easy to navigate LCD screen, simply enter the chosen weld process, material type and thickness, wire or electrode diameter, and if applicable, the shielding gas. The 210X automatically sets up to the ideal weld parameter, immediately ready to tackle your requirement with ease.

### ACCESSORY PACKAGE

### FEATURES AND PROCESSES

- Large LCD Screen viewing area
- Gas Metal Arc (GMAW) MIG Welding
- DC Stick Welding (SMAW)
- DC TIG Welding (GTAW)
- Flux Cored Arc Welding (FCAW)
- Easy Auto Set-up
- Thermal Overload Protection
- Burnback Control
- 115/230V Adapter Cord
- 7 ft. Power Cable
- Drive Rolls .023" -.035"
- 10 ft. Ground Cable & Clamp
- 14 ft. Electrode Holder
- 10 ft. Gas Hose w/ CGA 580 Flow Gauge

### OPTIONAL EQUIPMENT

**CF-99610**  
· 26 ft. remote control kit

**CF-99920**  
· 160A @ 60% dc  
· 10 ft. cable  
· Straight barrel  
· Pistol grip  
· .030" - .035"

**CF-99910**  
· 150A air cooled torch  
· 10 ft. cable  
· Gas control valve

\*Limited 3 year warranty
