

This collection opts for a style where the lines and shapes of organic inspiration define a space created to provide maximum comfort in each and every one of its details. Functionalism and intuition at the service of well-being in its most stylish and intelligent form.

BCF Design interprets forms whilst respecting function and emotive values. A way of understanding design that emphasises the timeless nature of the product above the ephemeral character of fashions. His partnership with Roca won Spain's National Design Award for 2002 for the Vythos bathtub.
