- **Activate Imaginations**

Please contact  
**StandUpFloats**  
for any questions or concerns.  
We care for our customers.  
Designed by SUF in Seattle.  
Made in China.

## CARE INSTRUCTIONS

- Always rinse with freshwater and dry before storing.
- Prolonged sun exposure causes discoloration and weakens materials.
- Do not use the inflatables to move or drag the board.
- Use patch kit to seal leaks.
- Reduce wear by keeping straps clean.

## HELPFUL HINTS

- Trim excess strap lengths for single board use.
- For shallow board plugs, use string to connect plugs to harness hooks.
- Move the head and tail around for weight balance or for different looks.
- Keep the straps loose until inflatables are positioned, then tighten.
- Watch the installation video at [www.StandUpFloats.com/install](http://www.StandUpFloats.com/install)

## CAP FUNCTIONS

The diagrams below describe the multiple functions of the cap.

### CAP & USE

Secure the top stopper and the one-way valve before using the inflatable.

### INFLATE SLOW

Pull out the top stopper while leaving the lower one-way valve in place so air cannot escape.

### INFLATE FAST or DEFLATE

Remove the top stopper and the lower one-way valve to get maximum air flow in either direction.

*Inflate with 1) your **mouth**, 2) a **hair dryer** on cool, or 3) an electrical or manual **pump**.*

**WARNING! THIS IS NOT A LIFESAVING DEVICE. DO NOT LEAVE CHILD UNATTENDED WHILE IN USE. ONLY TO BE USED IN WATER IN WHICH THE CHILD IS WITHIN ITS DEPTH AND UNDER ADULT SUPERVISION. DO NOT USE WITH GLASS CONTAINERS. DEFLATE IN HIGH WINDS. ALWAYS USE RESPONSIBLY.**

# INSTALLATION INSTRUCTIONS

## STEP 1: Prepare Inflatables

- Inflate compartments from low to high.
- Attach clips to tie-downs as shown:

## STEP 3: Attach Inflatables

- Attach clips to harness. 
- KEEP STRAPS LOOSE UNTIL EVERYTHING IS IN POSITION, then tighten straps.**

For more ideas, watch the installation video at:  
[www.StandUpFloats.com/install](http://www.StandUpFloats.com/install)

LEASHES AND LIFE JACKETS SAVE LIVES

## STEP 2: Install Harness

### SINGLE CENTER STRAP CONFIGURATION

Bow and stern plugs available.

- Hook the center strap to each plug.

### DOUBLE LOOP CONFIGURATION

No bow and stern plugs available.  
Toy is most secure.

- Install bow loop at inflatable head location.
- Install stern loop at inflatable tail location.
- Hook center strap to each loop.

## EN

1. Choose Configuration
2. Install Harness
3. Inflate and Connect

### Hints:

- Move the head and tail around for weight balance and different looks.
- Keep the straps loose until the inflatables are in position, then tighten.

Warning! This is not a lifesaving device. Do not leave child unattended while in use. Only to be used in water in which the child is within its depth and under adult supervision. Do not use with glass containers. Deflate in high winds. Always use responsibly. Leashes and life jackets save lives.

---

## DE

1. Wählen Sie Konfiguration
2. Installieren Sie den Kabelbaum
3. Aufblasen und verbinden

### Hinweise:

- Bewegen Sie den Kopf und den Schwanz für Gewichtsbalance und verschiedene Looks.
- Halten Sie die Gurte locker, bis sich die Hüpfburgen befinden, und ziehen Sie sie fest.

Warnung! Dies ist kein lebensrettendes Gerät. Lassen Sie das Kind während des Gebrauchs nicht unbeaufsichtigt. Nur in Wasser verwenden, in dem das Kind in seiner Tiefe und unter Aufsicht von Erwachsenen ist. Nicht mit Glasbehältern verwenden. Bei starkem Wind entlüften. Benutze immer verantwortungsbewusst. Leinen und Rettungswesten retten Leben.

---

## FR

1. Choisissez Configuration
2. Installez le harnais
3. Gonflez et connectez

### Astuces:

- Déplacez la tête et la queue autour pour l'équilibre des poids et des regards différents.
- Lâchez les sangles jusqu'à ce que les inflatables soient en place, puis serrez.

Attention! Ce n'est pas un appareil qui sauve la vie. Ne laissez pas l'enfant sans surveillance pendant son utilisation. Seulement pour être utilisé dans l'eau dans laquelle l'enfant est dans sa profondeur et sous la surveillance d'un adulte. Ne pas utiliser avec des récipients en verre. Dégonflez par vent fort. Toujours utiliser de manière responsable. Les laissez et les gilets de sauvetage sauvent des vies.

---

## ES

1. Elija Configuración
2. Instale el arnés
3. Inflar y conectar

### Sugerencias:

- Mueva la cabeza y la cola para equilibrar el peso y diferentes miradas.
- Mantenga las correas flojas hasta que los inflables estén en posición, luego apriete.

¡Advertencia! Este no es un dispositivo salvavidas. No deje al niño desatendido mientras está en uso. Solo para usar en agua en la que el niño se encuentre dentro de su profundidad y bajo la supervisión de un adulto. No usar con recipientes de vidrio. Desinflar en fuertes vientos. Siempre use responsablemente. Las correas y los chalecos salvavidas salvan vidas.

---

## IT

1. Scegli Configurazione
2. Installare il cablaggio
3. Gonfiare e collegare

### Suggerimenti:

- Muovi la testa e la coda per bilanciare il peso e aspetto diverso.
- Tenere le cinghie libere finché i gonfiabili non sono posizionati, quindi serrare.

Avvertimento! Questo non è un dispositivo salvavita. Non lasciare il bambino incustodito mentre è in uso. Da usare solo in acqua in cui il bambino è nella sua profondità e sotto la supervisione di un adulto. Non usare con contenitori di vetro. Sgonfiare con vento forte. Usare sempre in modo responsabile. Guinzagli e giubbotti di salvataggio salvano vite.
