- 8.WEEE garbage bin symbol: The product may not be disposed of in regular household garbage, instead it must be made available to a recycling system.
- 9.Non-waterproof and Lighting Location Dry.

Installation instructions

- 1.Install the light as described in the assembly instructions.
- 2.Connect the light to 6-fold connectors using 12 V plugs.
- 3.Connect the power supply.
- 4.Please hold onto the assembly instructions.

Technical data

Mains voltage: 120V-60Hz
 Operating voltage: 12V DC 0.5AMP 12V DC 6W
 Safety class: Transformer...2
 Test symbol: Transformer: UL
 Illuminant: LED cannot be replaced

CLIP LIGHT

Number per light: 3
 Luminous colour: RGB
 Watts (input power): 054 W
 Average rated life h: 15000h

PUK LIGHT:

Number per light: 9
 Luminous colour: RGB
 Watts (input power) : 1.62W
 Average rated life h: 15000h

patch the sticker on and attach to any location
