

# 5 REASONS TO TRY ALL-BOND UNIVERSAL<sup>®</sup>

Light-Cured Dental Adhesive

Rx Only

## 1 Compatible

Compatible with all light-, self-, and dual-cured resin composite and cement materials for all direct and indirect procedures.

## 2 Versatile

Its chemistry offers the flexibility to either total-, self-, or selective-etch.

## 3 Durable

Unique chemistry allows for the adhesive layer to become hydrophobic after polymerization, which enhances durability over time.

## 4 Convenient

No separate activator bottle is required.

## 5 Peace-of-Mind

Low film thickness (less than 10 microns) ensures proper fit of indirect restorations.
