

hollow handle micro applicators

less plastic is the best plastic

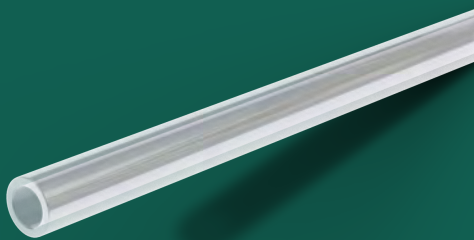

made by premiumplus™

45% less plastic
in the handle

50% recycled plastic
in the handle

100% recyclable
cardboard box

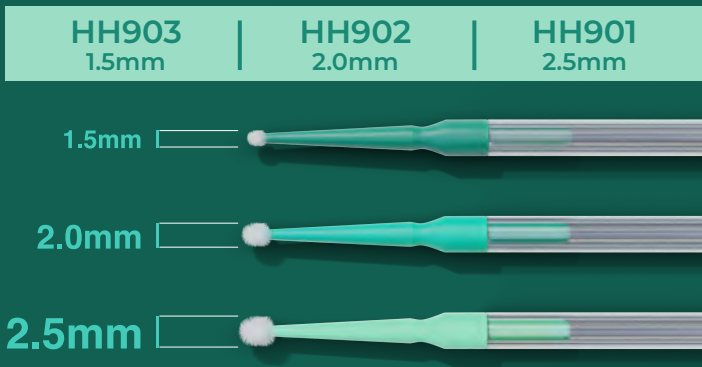

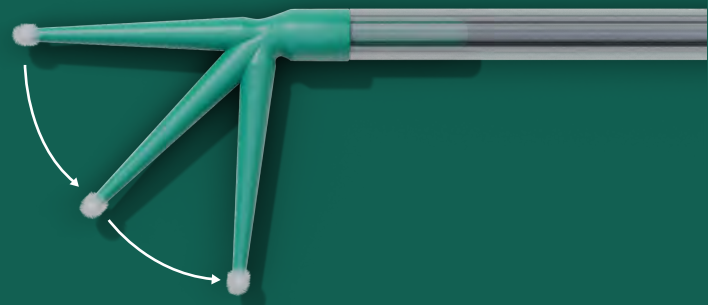

hollow handle

Made of 50 % recycled plastic from our other manufacturing processes. Our handle is also hollow, meaning we use 45 % less plastic than our standard handles

recycled plastic

We use 100% recycled plastic from our other manufacturing processes to create a head that bends and maintains that position

3 different sizes

Available in 3 sizes with non-absorbent brush fibres that are retained throughout the entire procedure and a flexible head that allows accurate applications of any liquid

100% recyclable cardboard box

Instead of plastic tubes that use large amounts of plastic, we have simple, functional 100% recyclable cardboard boxes containing 100 pieces
