LMSharpDiamond™
SHARPEN FREE COATING

CHOOSE SHARP.

LMSharpDiamond™ - Enjoy sharpen free prophylaxis and perio

WE CREATE GENUINE VALUE FOR DENTAL CARE PROFESSIONALS

LM Sharp Diamond™ instruments are completely sharpen free.

These instruments are made from exceptionally durable special metal alloy, and its wear resistance is enhanced by a protective micro membrane coating.

EXCELLENT SHARPNESS AND COMFORT

LM Sharp Diamond™ instruments with LM-ErgoSense® handle are especially suitable for clinicians who use hand instruments frequently and want to minimize the time spent maintaining dental instruments. These instruments combine optimal characteristics of superior sharpness, tactile sensitivity and comfort.

BETTER INSTRUMENTS BRING BETTER OUTCOMES

LM Sharp Diamond™ instruments are well-suited for all forms of scaling. These instruments retain their original functionality, size and shape throughout their lifetime. The time saved from sharpening can be used for productive work and promotion of health. Choose sharp and work efficiently.

Elastic, ergonomic surface material and optimal contouring
- comfortable and non-slip grip

Special alloyed metal core
- lightweight structure
- metal-to-metal connection for enhanced tactile sensitivity

Optimal rigidity
- excellent sensitivity and efficiency
- outstanding corrosion resistance

Precision formed tips and high-quality finishing
- extremely sharp and smooth cutting edge

Ultimate LMSharpDiamond™ SHARPEN FREE coating

- Micro membrane coating made using the most advanced PVD (Physical Vapor Deposition) technology
- Completely sharpen free
- Superior long-lasting sharpness
- Maximal wear resistance

Sharpen free instruments – finished design and usability

Sickle Scalers

The new LM-SharpJack™ instrument features extra long, thin blades for convenient interproximal access presenting the most popular scaler design in US. The shank is optimally angled to universally adapt in anterior and posterior regions.

“ LMSharpJack™ - what a great instrument!

It has the best features you could wish for. It's very narrow and thin which allows you to enter everywhere, even in the smallest areas. Perfect that the tip is so long so you can get in between molars. My favorite without competition, I'm in love!”

Malin, Registered Dental Hygienist, Sweden

LM-SharpJack™ SD

- Anterior/posterior scaler
- Thin dual-edged blades for easy and efficient interproximal access

LMErgoSense®

LM 315-316SD ES

Scan the QR for more info & video at www.lm-dental.com/SharpJack

Scaler LM Nebraska 128 SD

- Instrument for the anterior interproximals

LMErgoSense®

LM 128-128SD ES

Micro Sickle SD

- Anterior/posterior scaler
- Delicate working end
- Elongated shank
- Ideal for tight interproximal surfaces

LMErgoSense®

LM 301-302SD ES

Mini Sickle SD

- Universal scaler
- For all tooth surfaces
- Fine, slightly angled blade

LMErgoSense®

LM 311-312SD ES

NEW

Sickle LM204S SD

- Sharply angulated shank and very fine working end

LMErgoSense®

LM 303-304SD ES

Sickle LM23 SD

- Posterior scaler
- Shorter blades and longer lower shank than in Mini Sickle

LMErgoSense®

LM 313-314SD ES

Scaler H6-H7 SD

- For all tooth surfaces
- Longer shank and smaller lateral bending than in LM-SharpJack™

LMErgoSense®

LM 146-147SD ES

Universal Curettes

Columbia 4L-4R SD

- For incisors, canines and premolars
- For heavier calculus

LMErgoSense®

LM 219-220SD ES

Barnhart 5-6 SD

- For molars
- Shorter lower shank

LMErgoSense®

LM 227-228SD ES

“

It's great that I don't need to waste my time on sharpening any longer! Since the LM Sharp Diamond™ instruments are totally sharpen free, I can concentrate on the clinical work. I can remove calculus with controlled strokes using extremely light grip. The long-lasting sharpness really makes a difference!”

Anna, Registered Dental Hygienist, USA

LM Dual Gracey™ for EASY INSTRUMENTATION

LM Dual Gracey™ combines the benefits of a universal curette and a Gracey curette in one. These instruments are designed for the removal of supra and subgingival calculus from all tooth surfaces. The LM Dual Gracey™ concept, combining Gracey curettes and universal curettes, enables fewer instruments to be used. The traditional set of four Graceys may be replaced with only two LM Dual Gracey™ instruments: Syntette™ and Syntette™ Anterior.

SIMPLY CLEVER TIP DESIGN

Each LM Dual Gracey™ tip has two elliptical cutting edges - a mesial and a distal edge. This design allows for treatment of both mesial and distal tooth surfaces. The lower shank is kept parallel to the tooth surface while scaling, of particular convenience when accessing subgingivally. LM Dual Graceys™ are suitable for vertical, horizontal and oblique scaling techniques.

LM Dual Gracey™ instruments have rounded tip with two cutting edges.

LMDualGraceys™

- The original LM Dual Gracey™ curette, a combination of universal curette and Gracey 11/12 and Gracey 13/14 curettes
- For removal of supra and subgingival calculus in premolar and molar areas
- For all tooth surfaces
- Mini model is excellent in narrow and deep pockets

Syntette™ SD

LMErgoSense®
LM 215-216SD ES

Mini Syntette™ SD

LMErgoSense®
LM 215-216MSD ES

NEW

- New Syntette™ Anterior is completing the set of LM Dual Graceys™
- A combination of universal curette and Gracey 1/2 and Gracey 7/8 curettes
- For removal of supra and subgingival calculus in premolar and anterior areas
- For all tooth surfaces
- Mini model is excellent in narrow and deep pockets

Syntette™ Anterior SD

LMErgoSense®
LM 275-276SD ES

Mini Syntette™ Anterior SD

NEW GRACEYS

CHOOSE SHARP.

Opposites attract. This holds true with high-quality periodontal instruments. Optimally they are razor sharp, extremely hard, yet smooth and light. A new micro coating made using modern Physical Vapor Deposition (PVD) technology enables LM™ to create LM Sharp Diamond™ instruments combining these features optimally: they are completely sharpen free, tough but refined.

No more sharpening.

SHARPEN FREE MICRO COATING

Savings of time & money

Highest rated ergonomics with sensational grip*

You will enjoy full control and improved tactile sense, while effectively removing the calculus.

Long-lasting superior sharpness

Improved productivity & clinical results

DIAMOND-LIKE FEATURES

- Sharpen free 
- Superior sharpness 
- Highest rated ergonomics..... 
- Minimum maintenance 

HARDNESS

Hardness contributes to the durability of the instrument. Sharp Diamond reaches hardness of over 63 on Rockwell scale.

WEAR RESISTANCE**

decrease in wear compared to typical dental hand instrument material.

Cutting edge of the LM Sharp Diamond™ curette and the magnification of the edge after the test.

Cutting edge of a typical non-coated curette and the magnification of the edge after the test.
