Excalibur®

COMMERCIAL DEHYDRATORS

The preferred choice for foodservice professionals

SAVE TIME, REDUCE SHRINK AND INCREASE YOUR SALES WITH DEHYDRATED SNACKS!

Excalibur Food Dehydrators enable you to save food, time and eliminate waste by preserving fruit, vegetables, herbs, fish, meat and create healthy food alternatives. Excalibur food dehydrators enable foodservice businesses and professionals to produce and offer healthy food snack alternatives using produce that would otherwise be wasted.

Excalibur features three commercial dehydrator models, **EXC10**, **COMM1** and **COMM2**, featuring patented hyperwave technology and horizontal parallax drying that removes water from food with a continuous circulation of thermostatically-controlled warm air that is efficient and user-friendly.

WHY ARE EXCALIBUR COMMERCIAL FOOD DEHYDRATORS THE CHOICE OF LEADING FOODSERVICE PROFESSIONALS?

DESIGN

Excalibur's cumulative dehydrating knowledge combined with the innovative multiple motor design creates precision airflow and increased thermal control. The high quality brushed stainless steel units include several features such as:

- Front door dampers and doors that can be removed
- Intuitive digital controls and ethernet controls are also available
- Drying capacity of 10, 12, and 42 stainless steel trays depending on model
- Stainless steel interior and exterior construction
- Armored glass doors
- Removable trays
- Casters with brakes
- Patented technology - Hyperwave
- Parallax Horizontal Airflow
- Adjustable thermostat
- Removable rack weldments

VERSATILE

The innovative dual zone design has the ability to use different temperatures in each zone and increase the versatility of the unit. With a dual zone you can stagger batches or dry different products separately from each other.

EFFICIENT

Excalibur models are engineered with commercial size drying racks which make it easy to pre-stage and unload product

SAFETY & SANITATION

It is important to have commercial appliances that are safe and easy to clean. Excalibur Commercial Dehydrators are engineered and designed for safety and sanitation with these features:

- Removable Doors - safe and easy to maintain
- Smooth Radius Walls - easily wipe down to improve sanitation and safe because no sharp edges
- Casters - large wheels, with front locking brakes allow for mobility to easily clean around and behind the unit
- Accessible Back Door - opens to allow through cleaning of food zone

NSF & UL APPROVED

Excalibur Commercial Dehydrators are NSF & UL approved, ensuring that your commercial appliance has been inspected by a recognized organization, as you may potentially be inspected by your local or state health department. Many inspectors look for the NSF Mark on your equipment. Our dehydrators have passed strict requirements and inspection to meet NSF & UL standards.

WARRANTY

One year limited warranty US and International.
