

# Magic/Fluid/RC

## Wiper/Seal Kit

Part # 101526

## Magic / Fluid Fork Wiper / Seal Kit

This Kit Includes:

- 2 - Wiper Seals
- 2 - Oil Seals

Note - It is helpful if you soak the wiper seals and oil seals in a light fork oil for a few hours before installation. This allows for smoother installation and longevity.

Instructions:

If you do not have proper tools, please have a qualified bicycle shop perform this service. Full service instructions can be downloaded of the web site or by contacting White Brothers directly [info@mrpbike.com](mailto:info@mrpbike.com).

- 1) Pull the fork apart following the instructions in your Owner's manual.
- 2) Clean out the fork lower using a degreaser. Remove the wiper seals making sure not to damage the inside of the fork lower. Remove the oil seals with the same care.
- 3) Clean out the cavity where the oil seals and wiper seals are inserted.
- 4) Install the oil seals with the spring side down, using a seal installation tool or a properly sized socket. Install the wiper seals and make sure that they are fully seated.
- 5) Place a small amount of fork grease in the cavity between the oil seal and the wiper seal. Put a small amount of grease on the bushings for assembly. Reassemble the fork according to the instructions in your Owner's Manual.
