

FAT RELEASE "Forskolin & Acetyl-L-Carnitine"

Ingredients (per capsule):

Forslean (forskolin)	100 mg.
Acetyl-L-Carnitine	500 mg.
Pantothenic Acid (dexpanthenol B5)	10 mg.

Other Ingredients:

Pine Bark Extract, Coenzyme Q10, Marine Lipids
EPA/DHA, Trace Minerals, Tricalcium Phosphate,
Maltodextrin, Silicon Dioxide, Magnesium Stearate.

How to use: 2 capsules per day, after a meal. A loading dose of 4 capsules is recommended for the first two weeks.

Features/Benefits:

- Breaks down long chain triglycerides (stored fat)
- Transports fat into the mitochondria to be burned as fuel
- Aids in production of cellular energy

Key Ingredients:

Forskolin - stimulates the release of fatty acids from adipose tissue; mobilizes stored fat

Acetyl-L-Carnitine - transports fatty acids into the mitochondria; aids in production of cellular energy

Who should use?

- Add-on to any weight loss program
- Easily transitions to maintenance program
- Patients who have reached weight loss "plateau"

Brief description:

"FAT RELEASE breaks down stored fat to be used for energy"
