# CASE STEEL ROSTER

Use this guide to identify the steel on your Case® Knife

## STAINLESS STEEL (SS)

---

A high strength steel alloy with a high percentage of chromium that provides superior corrosion resistance compared to conventional steel. Blades blanked from this material hold an edge longer and have extraordinary blade strength. This type of steel requires minimal care and will resist rusting/tarnishing to a much greater extent than other steels. Stainless has been a manufacturing material at Case since 1916. Identified as the most common type of blade material used at Case, it is referred to as Tru-Sharp™ surgical steel.

## CHROME VANADIUM (CV)

---

A high carbon 1095 steel containing some Chromium for better hardening and Vanadium to aid in the bonding process. This steel type is known for holding an edge and ease of sharpening. It is important to note that CV steel is not corrosion resistant and is therefore prone to tarnish and rust when exposed to air and moisture. These blades must be kept clean with a thin film of lightweight oil to prevent rusting or discoloration, as well as to maintain the finish of the steel. CV blades will darken over time and develop a rich patina even when well cared for. This steel type was the original material used in Case knives over 130 years ago.

## CARBON STEEL (CS)

---

Our 1095 steel is part of a class of steels where carbon is the principal alloying element that gives the steel high tensile strength, wear resistance and toughness. Closely resembling our CV blades, our CS steel is also known for its edge retention and ease of re-sharpening while also being susceptible to tarnishing and rusting compared to stainless steel when exposed to air and moisture. A thin coat of oil or other suitable waterproof coating will preserve the steel's original appearance while providing you many years of dependable service.

## 154-CM

---

A high performance American-made stainless alloy known for its sharpness and edge holding ability. It is manufactured with very few impurities, combining three principle elements: Carbon, Chromium, and Molybdenum. Added levels of Carbon and Chromium enhance the steel's hardness and rust resistant qualities. Re-sharpening can require extra effort. Case began offering this steel type in 2008 and it currently appears in knives featured in annual Case/Bose limited collaborations.

## DAMASCUS (DAM)

---

The crafting of Damascus steel is a tradition that dates back to the Crusades and is named for the famous Syrian city where some of the first man-made metals were traded publicly. It is comprised of thin layers of metal that are heated together to form a laminated solid. Designs take shape as layers are folded in then welded together by forging. Over the years, Case has opted for both carbon and stainless steel Damascus blades for different knife projects. Various Damascus steel patterns used at Case Company include: Random, Raindrop, Ladder, Snakeskin, and Tear Drop. Case began using Damascus steel in 1989.

## S35VN

---

A tough, wear-resistant chrome and vanadium-based steel. It is a second-generation refinement of S30V steel. Experienced knife makers report S35VN is easier to work with, due to the addition of Niobium to the steel chemistry. Once annealed, this S35VN responds well to CNC machining, making it an ideal choice for high-performance blade manufacturing. S35VN blades offer superior edge retention and resistance to chips and breakage.

## 80CRV2

---

A chrome based, high-carbon steel. This material is a very tough, hard-working metal alloy that's preferred by hand-forgers and manufacturers alike to make everything from specialty products like tomahawks and swords to everyday repair tools, fixed blade kitchen knives, fixed blade hunters and traditional folding pocketknives. 80CrV2 steel responds well to grinding and performs dependably in most any environment without buckling under pressure. This steel can be found in the Case® Winkler American Heroes Knife Series.

# CASE TAXONOMY

## HERITAGE

Our traditional slipjoint knives, built to keep your hands sharp and get the job done. These are the styles of knives that have defined the Case brand for more than 130 years.

## SIGNATURE

These slipjoint knives have the right style for any moment that calls for a little something extra — like special deco art on the handle, blade and bolsters, and our licensed products.

## MODERN

This category includes our Modern Everyday Carry folders like the Kinzua® and the award - winning Marilla®.

## SPORTING

A wide array of fixed and folding knives that are built for adventuring — everything from fishing and hunting knives to utility knives for general outdoor use — are included in this category.

## SPECIALTY

Knives from our household collection, limited editions and knives for special presentations can be found here.

# SMALL CONGRESS

The Case Small Congress pattern has been elected back into a top position in the Case product lineup for 2023! This unique Case XX® Vault program has been met with great expectations each year by knife enthusiasts of all types since it's official launch in January 2008. It offers casual Case hobbyists and collector-minded fans with an opportunity to find missing knives for the new year that may have eluded them in the past. Also, Case's continuous engineering and production improvements enhance overall consumer appeal of reintroduced patterns. The ('68) Small Congress pocket folding knife features a sheepfoot blade with spear, pen and coping blades made of mirror polished steel, with nail nicks for opening. Each measures 3 1/8 inches with nickel silver bolsters. \*Two bladed versions are fitted with only sheepfoot and pen blades.

As-Ground Tru-Sharp™ Surgical Steel Fixed Blade

# RIDGEBACK® HUNTER

Whether you're an avid outdoorsman or a weekend warrior, you'll appreciate the rugged durability of a Case® Ridgeback Hunter. This knife is made for hard work and hard play, with a stainless steel Swept Skinner blade that's sabre/concave ground and your choice of three very different handle options. Each one is as comfortable to hold as the next, and comes with a leather or ballistic nylon sheath for worry-free belt carrying.

00398 SMOOTH ROSEWOOD

(Ridgeback Genuine Leather Sheath)

# USMC® KNIFE

The Case USMC® fighting knife is a carefully crafted reproduction of a prototype submitted by Case to the Armed Forces in the early days of World War II. Our design features a blackened carbon steel blade and a grooved natural leather handle to provide a sure grip. A knife of this design was a necessity at that time, not only for battle, but also for digging trenches, cutting through line or wire, opening rations, and a myriad of other tasks while in the theater of war.

## 00334 USMC® KNIFE

USMC • Fixed Blade measures 6 ½ in  
Authentic Reproduction of Prototype  
Submitted to Armed Forces  
Grooved Leather Handle  
Knife measures 12 ½ in (30.8 cm) overall,  
10.2 oz (289.2 g)

00334 USMC® KNIFE

High Carbon Stainless Steel Fixed Blade • Packaged in Two Piece Box

# CASE® ASTRONAUT KNIFE M-1

From its inception in 1958, the National Aeronautics and Space Administration (NASA) has been devoted to researching, educating and enhancing life here on earth.

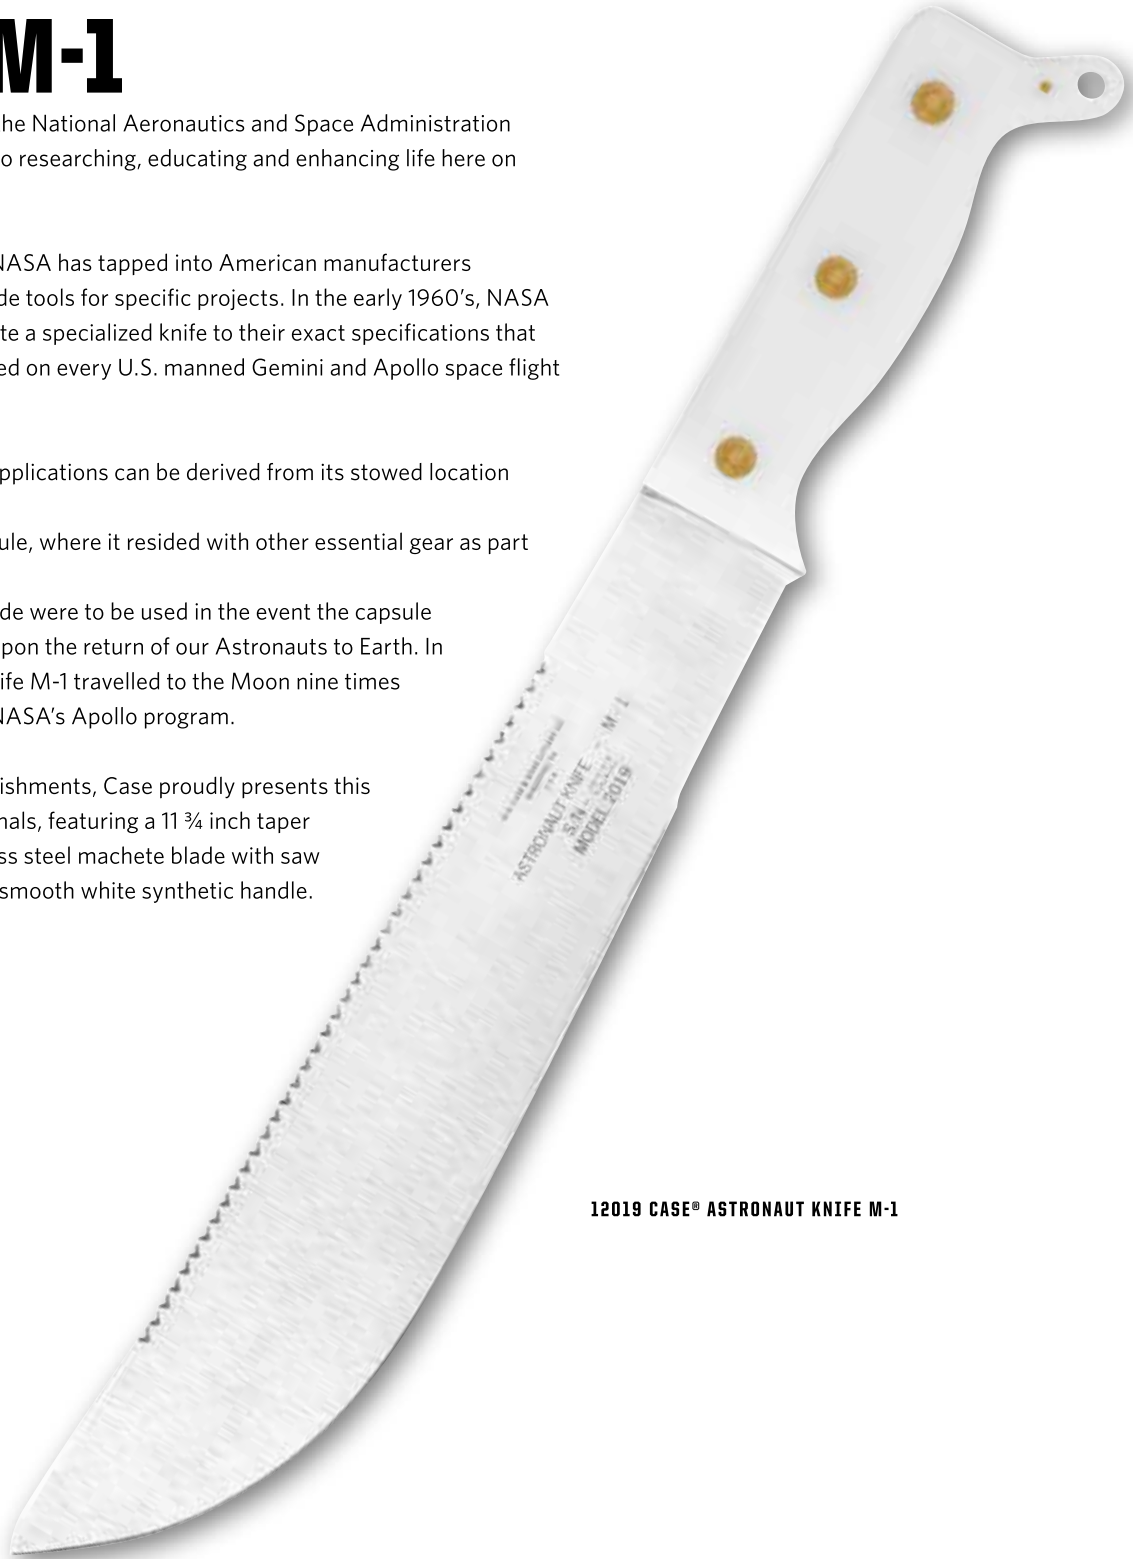

In support of those ideals, NASA has tapped into American manufacturers to help pioneer custom-made tools for specific projects. In the early 1960's, NASA commissioned Case to create a specialized knife to their exact specifications that would ultimately be equipped on every U.S. manned Gemini and Apollo space flight missions.

The knife's most practical applications can be derived from its stowed location inside each ship's Command Module, where it resided with other essential gear as part of a survival pack. The tools inside were to be used in the event the capsule splashed down off-course upon the return of our Astronauts to Earth. In all, the Case® Astronaut Knife M-1 travelled to the Moon nine times from 1968-1972 as part of NASA's Apollo program.

To celebrate these accomplishments, Case proudly presents this reproduction of those Originals, featuring a 11 ¾ inch taper ground, high carbon stainless steel machete blade with saw teeth along the spine and a smooth white synthetic handle.

## 12019 CASE® ASTRONAUT KNIFE M-1

Embellished Machete Blade Measures 11 ¾ in  
Knife measures 17 in (48.0 cm) overall, 10.8 oz (306.2 g)

# HOW TO IDENTIFY A CASE® KNIFE

The number stamped on the tang of one blade of every Case knife identifies the pattern. The first number is the handle material, the second number is the number of blades, and the rest is the factory pattern number. In the example below, 6318 is a #18 factory pattern knife with a jigged bone handle and three blades.

## HANDLE MATERIAL KEY

- 1 . . . Solid Hardwoods
- 2 . . . Smooth Black Synthetic or Thermoplastic Rubber
- 3 . . . Smooth Yellow Synthetic
- 4 . . . Smooth Synthetic (Various Colors)
- 5 . . . Genuine Stag
- 6 . . . Smooth/Jigged Bone (Various Colors), Jigged Synthetic (Various Colors) or Jigged Laminated Hardwood
- 6.5 . . . 6.5 BoneStag
- 7 or P . . . Wood or Laminated Hardwood
- 8 . . . Genuine Mother-of-Pearl, Abalone or Paua
- 9 . . . Imitation Mother-of-Pearl or Corelon
- 10 . . . Micarta, G-10 or Kirinite®
- I . . . Ivory, Imitation Ivory or Mammoth Ivory
- EX . . . Exotic Materials
- M . . . Stainless Steel or Aluminum
- BH . . . Buffalo Horn

## AUTHENTIC CASE COLLECTIBLES

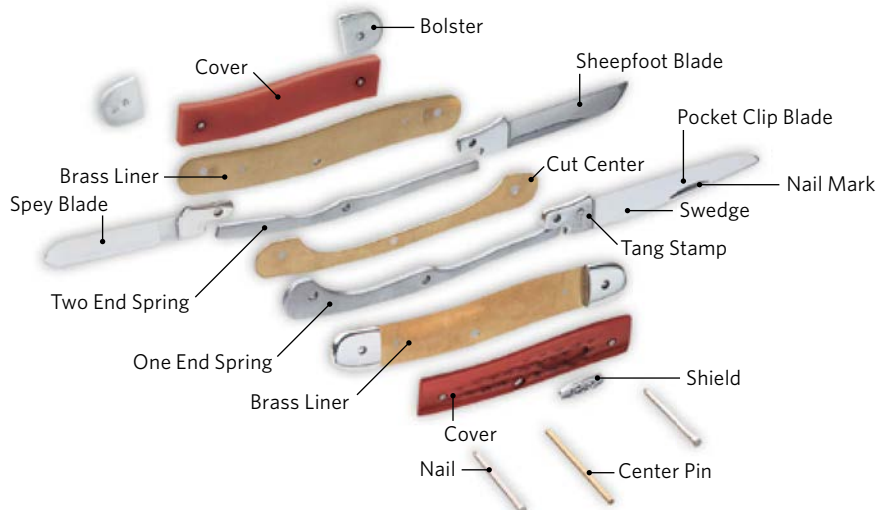

We put the *Long Tail C* serialization exclusively on collectable products manufactured and sold by Case.

This logo assures you the collectable item is authorized by Case.

# ANATOMY OF A CASE® KNIFE

Hand-crafting a Case knife is an exercise in skill, focus, and, most importantly, patience. Roughly 160 steps go into the creation of each knife, from the handle to the blade to everything in between. To us, the process is just as important as using the finest components in the world, like rich, natural handle materials, premium-quality steel, select brass and superior nickel silver.

## THE CASE LIMITED LIFETIME WARRANTY

We warrant each and every Case knife to be free of defects in material and workmanship for the life of the owner, and we will repair or replace with a new Case knife, at our option, any Case knife that is defective. That's how strongly we feel about the quality of our cutlery. If you believe your Case knife has a manufacturing defect, please complete our online form at [caseknives.com/repairform](http://caseknives.com/repairform) to obtain return authorization. Then follow the simple steps provided to send us your knife for service – or contact Case Consumer Relations at +1 (888) 442-1932 for specific instructions.

## CONSUMER AWARENESS STATEMENT

You expect Case to deliver high-quality, razor sharp knives, and in turn each Case blade is honed to an extremely sharp edge. We ask that you be very cautious when opening, closing, using, handling or sharpening our products in any way. Case® knives are tools used exclusively for cutting applications. They are not designed to be, nor should they EVER be used as an awl, chisel, pry-bar, punch, screwdriver or weapon. Use for any purpose other than cutting applications in a safe unharmed manner shall be deemed misuse. If an injury occurs during use (or misuse) of a Case knife, this is a risk that our customers assume, and Case cannot, in any way, be held accountable.

Due to the inherent properties of the materials we use and the manufacturing and coloring techniques that go into our knives, some items may not look exactly as depicted.
