Keyline USA will ship out the order including return instructions and a pre-paid UPS return label for return of original console. The old console must be in good working condition and must be returned with original power supply cables included. If the customer does not return the original console within 30 days, distributor will be billed for the full price of \$1,530.00. The console trade-in is valid for current locksmith customers who own a 994 Laser, not applicable for dealer market.
