

Berlin

Inspired by a city renowned equally for business and culture, our Berlin range is tailor-made for an energetic and successful urban life on the move. Blending traditional production techniques with a contemporary motif, these items embody both style and practicality: slick yet comfortable, relaxed yet thoroughly self-assured.

This perfect marriage of form and function is no accident. The beautiful, pebbled finish that exemplifies the Berlin range was selected not just for its fashionable characteristics, but also for its suppleness and durability. The soft, granulated texture is complemented by high-sheen zips and fittings, resulting in items that make a bold statement of sophistication while standing as true hallmarks of utility.

Adapting to your lifestyle, your movement and your individuality, they will be your treasured travelling companions for many years to come.
