

Montana

RFID protected

Outside the Mother City, Cape Town, sits a busy tannery which produces our magnificent, oil-rich Montana leather, a blend of comfort, flair and tradition with a distinctive, vintage finish. Tanned to its uniquely rich hue, the leather is then smooth-plated and hand-milled to produce a classic, aged appearance.

Our Montana range is born to travel: to be with you as you learn and grow, to accompany you as you stretch your limits and foster an appreciation of new worlds. The ultimate travel companion, your Montana product also embodies so much of what you love about home – that familiarity with comfort and warmth.
