

VIA VENETA

PROVOQUE

Via Veneta Provoque

The articles I create must firstly be practical, I am then free to dream of all the beautiful people who will be carrying our accessories.

—Hanspeter (HP) Winklmayr, Master Craftsman.

Via Veneta PROVOQUE, evolved from Hanspeter's intuitive desire to preserve the dignity of the precious leather he worked with. This was achieved by crafting a collection that is affordable without sacrificing quality and design aspects.

Following an extended period of research and development the concept of handbags and accessories that brought to life symmetry in exotic leather was released to the market.

PROVOQUE is a collection of exotic leather handbags and accessories that characterize Urban Design. These are exclusively conceptualised

and manufactured by Via La Moda for a discerning clientele expressing their individual style.

OSTRICH LEATHER is uniquely soft, pliable and improves the more you handle your accessory. It is recognised by a unique pattern enhanced by the feather quills.

Highest level organic tanning methods are applied to further enhance the natural attributes of ostrich leather.

Available in limited supply, NILE CROCODILE SKIN is one of the most luxurious of the exotic leathers and owes its rarity to the revered reptiles from which it is drawn.

Via La Moda is fully supportive of sustainability initiatives and complies with the requirements of CITES, the Convention on International Trade in Endangered Species.
