

DFE series New Concept fixed incounter dispensers

- Four fixed guides with 'flat' guide top
- Dispenser easily removable from the counter or heated casing for cleaning and maintenance
- Models to suit round plates 145-338 millimetres diameter
- Capacity of approximately 55-60 plates
- Multispring mechanism to give easy adjustment for different plate weights
- Heated models with 400W element thermostatically controlled by remote (up to 1500mm) thermostat, with on/off switch, mounted in control panel
- Option for heated units to be controlled by fixed thermostat with no switch or neon

General specification New Concept DFE incounter plate dispenser comprising unheated dispenser mechanism which may be mounted directly in a counter top for an ambient application or mounted in a heated outer casing for heated applications. The dispenser mechanism is easily removable from the counter or heated casing for cleaning and maintenance.
