- 1** Unpack the bread lame and razor from packaging. Be careful in handling the razor as it is extremely sharp.

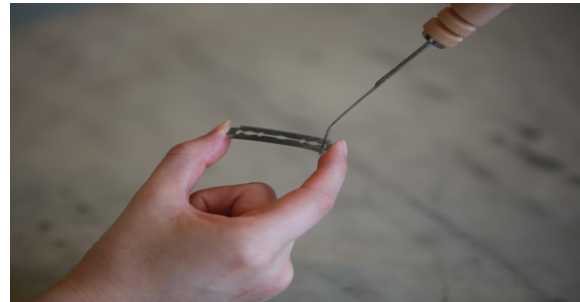

- 6** Use your thumb and index finger to flatten out the razor blade curve.

- 2** Grip the blade tightly using your thumb and index finger.

- 3** Stick the tip of the lame into the first slot opening on the blade.

- 7** Check positioning of the razor blade on the lame to ensure a good hold.

- 4** Use your thumb and index finger to bend the razor as you push the lame tip deeper into hole.

- 5** Continue pushing the lame deeper and finally inserting the lame through the last slot of razor.

- 8** Completion of bread lame setup should look like this.
