SELF-STICK SIZER

In addition to our innovative Velcro™ sizing system, we're proud to offer a self sticking sizer that can be installed in any hat. Simply peel off the adhesive backing and apply firmly to the inside front or back of your favorite hat.

Sizes are approximate and will vary with hat style and material. If unsure about which size to choose, it's best to choose a larger size, as our sizing system can adjust the hat down to one full size smaller.
