Troubleshooting

If keyboard is not working properly with the iPad (or other Bluetooth devices) make sure:

1) The Bluetooth function is active on the iPad.
2) The keyboard is within 33 feet of the iPad.
3) The passkey is entered correctly.
4) Restart your device.
5) Make sure the keyboard is charged. Recharge if needed.
6) Your established connection will be disrupted if you press the "CONNECT" button while both devices are already paired. Your keyboard might stop responding when this scenario happened. To resolve this issue, simply turn off both devices and repeat the pairing process.

Product Specifications

1) Transmit Range: up to 10 meters
2) Range of Frequency: 2.4GHz Spectrum
3) Operating Voltage: 3.7Vdc (powered by Li-ion)
4) Operation Current: <5mA
5) Standby Current: 1.0mA
6) Sleep Current: <0.25mA

This product is in compliance with Part 15 of the FCC rule.
Operation is subject to the following two conditions:
1. This device may not cause harmful interference.
2. This device must accept any interference that is received, including any interference that may cause undesired operation.

Preserve battery life span

Do not store keyboard for more than a month without usage. Give the device a full charge once in a while even if you don't use it often.
Do not let battery drain completely.
Unplug when it is fully charged. Do not let the device stay in charging condition when is fully charged. Unplug the charging cable when it is done charging.
Exposing your device to sunlight for a long period of time can degrades battery life span.
Attempt to dismantle or dismantling this keyboard will void the product warranty.

Feature hinge with 360° degree rotating angles.

360°

Installation and Set Up

(1)

1) Match up the ports location and place iPad into the cover case. Ensure all corners are snapped in and no gap is left between device & cover.
2) Flip the bottom metal stand out at 180° to support the mass so your unit does not topple.
3) Open the keyboard and utilize the hinge feature to adjust turning angles once installed correctly.

To release the cover

(1) Separate protective case by sliding the locking mechanism on the back of the cover.
(2) Gently release & lift the whole unit out of the dock.

(2)
(1)

(3) Once separated from keyboard, pop the iPad out from the case's cover corner by corner.

(3)

(4)

(4) Gently lift the iPad up once all corners are released from the case's cover.

📄 Copy	🔉 Volume -	

● fn- function key: Press and hold the FN key to activate the blue symbols on the keyboard.
● You'll need to press 🔒+ fn for lock screen.
● Language preference toggling

IOS 9 to latest IOS first release:
Hold CTRL and tap SPACE BAR
Note: Arrow keys are for navigation within text fields rather than webpage browsing (Varies if application supports it)

Installation Guide

Step 1. Charging the battery
1. For first time use, charge the keyboard for about 6 hours (or to full) before using it. When battery becomes low, recharge the keyboard for about 2 hours (or until the indicator light shows full).
2. The green LED will blink when battery is low and stay solid when fully charged.
3. Connect the charge cable (included) to charge keyboard.

Reminder:
Be sure not to plug in upside down

How to Recharge the Keyboard

To recharge the keyboard, connect the 5V.DC input from the keyboard into the USB charge port with the charge cable provided. You may still use the keyboard while charging.

Paring your iPad and the keyboard

Please follow the instructions below.
You will only need to set up the connection once.
Reminder: Your device will automatically recognize the last paired device.

* Make sure the keyboard is fully charged.
* Turn on the keyboard and press the "CONNECT" button next to the on/off switch.
* Indicator light will blink in blue while paring.
* Go to setting and turn on the Bluetooth in your iPad.
* Select "New Trent Keyboard" under "Other Device" in Bluetooth setting.
* Enter the four-digit verification code in the window.
* Once the status changes to "Connected", the pairing process is completed.
