

MedSurg DUO™

Pressure Relief Shoe

Standard Post Op Shoe

DARCO MedSurg DUO™

The MedSurg Duo™ shoe combines two different densities of EVA to provide up to 40% more plantar pressure reduction than standard post op shoes. Better protection for your surgeries and world class comfort for your patients - Guaranteed!

DARCO®

Dual Density

DUO™ Features and Benefits

- > Duo EVA sole provides up to **40%** pressure reduction over a standard post op shoe.
- > The EVA sole is lightweight, up to **27%** weight reduction compared to standard post op shoes.
- > 5 Sizes - unisex sizing reduces SKU's by almost **30%**.
- > The DUO™ is more durable, lasts 4x longer, and provides better shock absorption.
- > The DUO™ is compatible with the PQ - Peg Assist Offloading Insole to form the premier offloading combination on the market.
- > Adjustable ankle strap with soft ankle pad is softer, meaning more patient comfort.
- > Dual Buckle means strap and pad can be switched left or right.

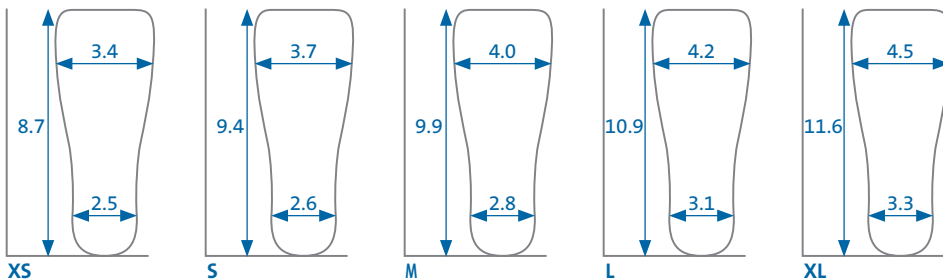

Pair with the PQ Peg Assist to enhance offloading.

DUO™ Sizing Chart:
