

# Heel & Ankle Offloading Boot

PATENT PENDING

3 critical pressure ulcer areas. One solution.

## PRESSURE RELIEF

Lateral Malleolus

4-way cushioning support under the heel and around the lateral and the medial malleolus removes pressure on these 3 critical pressure ulcer areas.

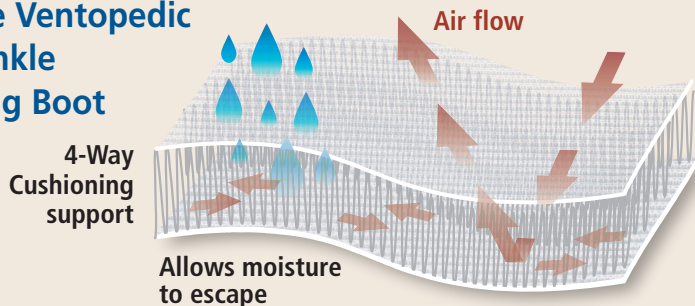

Heel

Medial Malleolus

Studies indicate that over 36% OF ALL PRESSURE ULCERS develop on these 3 body parts

## MOISTURE CONTROL

A Closer Look at the 3 Dimensional Structure Inside the Ventopedic Heel & Ankle Offloading Boot

Study results confirm minimal moisture absorption levels under warm and humid conditions.

## ADDITIONAL FEATURES

- The inner liner is soft against the skin and will reduce the possibility of shearing and/or friction
- Controlled levels of hydrophobic and hydrophilic fibers found in the inner liner allows the fabric to remain dry even under extreme humidity
- 4-way cushioning support under calf, achilles heel and around foot area
- Soft and breathable nylon exterior
- Machine washable: 167F (75C)  
Machine dryable: 220F
- Manufacture Guarantee of 12 months on material defects and workmanship under normal usage conditions for the 12 month period
- ID tag for patient information
- Latex Free
- 3 adjustable straps are soft and durable even after repeat washings
- Available in Small, Medium, Large and Bariatric sizes
