

The effective moisture & pressure reduction solution.

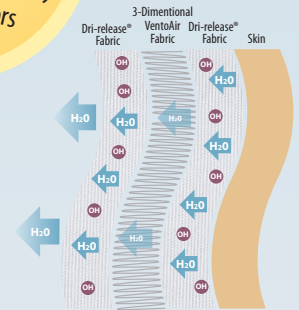

VENTOPEDIC™ WHEELCHAIR ACCESSORIES

Our Ventopedic™ wheelchair accessories are built around a unique combination of moisture-transport technology together with a ventilated cushioning support system. By combining Dri Release® fibers with 3-Dimensional VentoAir Fabric, TexMedico has been able to create continuous airflow ventilation along with advanced moisture transportation in all our Ventopedic™ wheelchair accessories. This unique combination reduces the presence of moisture on the skin thereby reducing the chances of skin breakdown and moisture induced odors.

Accessories are available in blue or black.

Vent-Away Moisture
 • Maintain Skin Integrity
 • Eliminate Odors
