

## Included In This Package

- OnGuard™ handheld repeller
- Wrist lanyard
- User guide

## Sold Separately

- (4) AA batteries (required for operation)

To install AA batteries, push the slider button on the bottom of unit and open the battery compartment door. Place batteries in with the **Positive** side of the battery next to the **+** marking on the housing, and the Negative side of the battery next to the **-** mark. Close the door firmly to feel the lock snap into place.

## Getting Started

The OnGuard™ by Good Life® is the latest high-powered solution to repel approaching dogs. This handheld trainer repels unwanted dogs, deters barking and doubles as a personal safety device. The OnGuard™ offers 3 functions:

### A Ultrasonic Output

Press and hold the Ultrasonic button down to activate a constant sound only the dog will hear. An LED light on the top of the unit will indicate that ultrasonic sound is being emitted. Release the button to turn the Ultrasonic sound off.

Be sure to point the device directly at the dog being targeted during use.

### B Audible Alarm

Press the Alarm button once to activate, and press it again to turn it off. In an emergency situation the alarm can be activated (and stay on) to draw attention to your situation and location.

This feature can also be used to train dogs who cannot hear ultrasonic sound.

### C High-Output LED Flashlight

Press the Light button once for a constant light. Press a second time for the strobe option. Press a third time to turn the light off.

## Features & Specifications

- Repel dogs up to 50 feet away
- Ultrasonic sound can be heard by dogs up to 150 feet away (for training purposes)
- Loud, pulsing alarm for personal safety use
- Ultra bright LED Flashlight with amplifying reflector
- LED indicator (on top of unit) lights up when ultrasonic button is pressed
- Ergonomic hand grip with smooth dual tone rubber coating
- Wrist lanyard attachment included
- Ultrasonic output: +105 db @ 1 meter
- Audible Alarm Output: +100 db @ 1 meter
- Light Output: 4,800 lux @ 1 ft.
- Uses (4) AA batteries (sold separately)

## Tips For Success

Ultrasonic sound cannot pass through walls, wood fences or other solid barriers. Make sure your OnGuard™ has a clear line of sight to the dog(s) you wish to deter.

Due to the powerful sound output of this product, it is not recommended for use on puppies under 6 months old.

## Safety

Use only as directed. Do not aim the OnGuard™ directly at your eyes or ears.

*Use of the OnGuard™ in no way constitutes an express or implied guarantee of personal safety from vicious animals.*

## Returns & Warranties

Don't worry, we've got you covered! Your OnGuard™ is backed by our 45 Day Money Back Guarantee and 1 Year Manufacturer's Warranty.

If you purchased your OnGuard™ from a retail location, please contact the store directly for return details. ## RADIO AND TELEVISION INTERFERENCE

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
