

Included In Your Package

- Positive Pet Trainer
- Nylon Collar Strap
- Micro USB Charging Cable
- Remote Control
- 3 Magnetic Plates

LED Indicator Light

Getting Started

1. Charge it Up

Before getting started, charge your Positive Pet Collar for at least 5 hours until the blue charging indicator light turns off. The **blue LED** will light up and remain on while charging. To access the charging port, push the sliding door in the direction of the arrow.

Charging Port

2. Power On & Off

To turn **ON** the Positive Pet Collar, hold the power button for 1–2 seconds or until the **blue LED** flashes and you feel the vibration motor activate.

To turn **OFF** the Positive Pet Collar, hold the power button for 1–2 seconds or until the **blue LED** flashes. The blue indicator light will flash for about 5 seconds.

3. Place it on Your Pet

Insert the nylon collar strap

The Positive Pet comes with a nylon collar strap that can be trimmed down to fit your pet, or you may use your own standard-size collar.

To insert the collar strap, push the sliding door on the side of the device in the direction of the arrow. Insert the strap and slide the door back into place.

Activation

Activate the device using the remote. When the device is activated the blue LED indicator light will flash. A single press of the remote will activate the Positive Pet vibration motor. The device will activate continuously with constant pressure on the remote button. The remote will activate the Positive Pet up to 55 feet (16m) away.

Interchangeable Magnetic Vibration Plates

SMOOTH PLATE
for short-haired pets

ROUND BUMPS
for medium-haired pets

POINTY BUMPS
for long-haired pets

NOTE: The Positive Pet Trainer should be positioned on the collar so that the bumps on the magnetic vibration plates sit against your pet's neck. When placed on your pet properly, the LED indicator on the Positive Pet Trainer should face out.

4. Tips for Best Results

- When fitting the Positive Pet collar, leave two fingers' width between the nylon strap and your pet's neck.
- If the collar is too long, cut the nylon strap to the proper length, and carefully seal the cut end with a flame as needed.
- Check the collar periodically to ensure a proper fit.
- Consistency is key to proper training.

FCC Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Caution

Changes or Modifications not expressly approved by the party responsible could void the user's authority to operate this device.

Note

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

ISED Statement

This device complies with contains license-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS standard(s). Operation is subject to the following two conditions:
(1) this device may not cause harmful interference, and
(2) this device must accept any interference received, including interference that may cause undesired operation.

L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence.

L'exploitation est autorisée aux deux conditions suivantes:

- (1) l'appareil ne doit pas produire de brouillage, et
- (2) l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

CE Statement

The simplified EU declaration of conformity referred to in Article 10(9) shall be provided as follows:
Hereby, Good Life, Inc. declares that the radio equipment type Positive pet collar UBC-PPD and UBC-PPC is in compliance with Directive 2014/53/EU. The full text of the EU declaration of conformity is available at the following internet address: ultimatebarkcontrol.com/pages/declarations.

The frequency range: 433.92MHz, the max. power is 10dBm.

Model Numbers: UBC-PPC; UBC-PPD
FCC ID: VEPGL-PETCOLLAR
IC: 11708A-PETCOLLAR
