## Section 4. First Aid measures

Take phrases in sections 2 into account

### 4.1 Description of first aid measures

#### After inhalation

Remove from the exposure area to fresh air, lay patient on back until breathing returns to normal. Contact a doctor if necessary.

#### After skin contact

Remove contaminated clothing. Wash thoroughly with soap and water. Seek medical advice if irritation persists or there is any sign of tissue damage.

#### After eye contact

Flush with plenty of water for 15 minutes including under eyelid and seek medical advice if necessary.

#### After ingestion

Do NOT induce vomiting. Position to avoid aspiration should vomiting occur. Wash mouth with plenty of water and obtain medical advice immediately.

## **Section 5. Fire-fighting measures**

### **5.1 Extinguishing Media**

Carbon dioxide, foam or dry powder.  
DO NOT USE A DIRECT WATER JET.

### **5.2 Special hazards arising from the substance or mixture**

May produce Carbon dioxide and unidentified organic compounds.

### **5.3 Advice for fire-fighters**

Wear Self-Contained Breathing Apparatus (S.C.B.A.) and full protective clothing to minimise skin exposure. Avoid inhalation of vapours. Keep containers cool with water spray. Do not use direct water jet on burning material. Do not allow spillage of fire to enter drains or watercourses.

## **Section 6. Accidental release measures**

### **6.1 Personal precautions, protective equipment and emergency procedures**

Remove all sources of ignition. Avoid inhalation, skin and eye contact. Ensure proper ventilation. Evacuate all unnecessary personnel. If possible contain the spill.

### **6.2 Environmental precautions**

Do not discharge directly into drains or the soil. Keep away from surface and ground water

### **6.3 Methods and material for containment and cleaning up**

Soak up spillage with sand or other inert absorbent material such as earth or vermiculite; transfer used material to a suitable waste container and dispose in accordance with regulations. If large quantities of this material enter the waterways, contact the EPA or your local Waste Management Group.

### **6.4 Reference to other sections**

Refer to information in Sections 7, 8 and 13

## **Section 7. Handling and storage**

### **7.1 Precautions for safe handling**

Maintain good occupational and personal hygiene. Avoid inhalation and contact with skin and eyes. Wear protective clothing and use safety glasses. Keep in original container or an alternative made from a compatible material.

### **7.2 Conditions for safe storage, including any incompatibilities**

Store in tightly sealed original containers away from ignition sources and in a cool place. Avoid contact with incompatible materials that support combustion, such as strong oxidising agents.

### **7.3 Specific end use(s)**

No further information available

*The information contained herein is true and accurate to the best of our knowledge. All information is valid until revisions are issued. However, the accuracy of this information cannot be guaranteed by the company as the data has been obtained from different sources. We will not, therefore, accept liability for misuse of this data resulting in damage or loss.*

## **Section 8. Exposure controls / personal protection**

### **8.1 Control Parameters**

No exposure standards have been established for this material by Work safe Australia. However as a matter of course avoid repeated or prolonged contact with the skin. Keep out of eyes. Do not ingest. Use with good ventilation, do not breathe vapour. Sensitive individuals may develop an allergic response.

### **8.2 Exposure controls**

#### **Engineering controls**

Natural ventilation should be sufficient, however where vapours of mists are generated the use of a grounded mechanical exhaust ventilation system is recommended.

#### **Individual protection measures**

Refer to Section 5 for specific fire/chemical personal protective equipment advice. Always wash routinely before breaks, meals and at the end of the work period.

#### **Eye/face protection**

Use splash-proof safety glasses and face shield where splashing is possible.

#### **Hand protection**

Wear chemically resistant disposable gloves.

#### **Other skin protection**

Wear overalls. Depending on conditions in the workplace, additional body protection should be considered. Always wash routinely before breaks, meals and at the end of the work period.

#### **Respiratory protection**

Not generally required. Use inhalation protection in poorly ventilated areas

#### **Thermal hazards**

No information

#### **Environmental exposure controls**

Emissions from ventilation and process equipment should be checked to ensure compliance with environmental protection legislation.
