FITTING SPECIFICATIONS

Extendable fitting: This lampshade is suitable for use on lamp bases as well as pendant shades. For lamp bases, an extended fitting (1) will sit on the lamp fixture: for any UK fittings, use the shade reducers included with your lampshade to secure the shade. For use as a pendant shade, simply fold the bulb fitting from an extended position (1) to a retracted position (2).

SHADE REDUCERS

These shades are compatible for UK and EU fittings. With the UK compatible Cork Obelisk Lamp Base, you will need to position the shade reducers included with your shade above and below the shade carrier, so that the shade is sandwiched to the base. Secure with the detachable shade ring usually found on lamp bases.
