More Information

OFFERINGS

We offer a variety of cookies from regular to mini's; you can choose between pre-filled or DIY. For DIY cookies, you and your guests can inject the cookies using a ready to go syringe which makes for an interactive and memorable experience. Orders must be placed 2 weeks prior to pick-up.

HEATING

Cookies need to be warmed in an oven at 350° for 2-5 minutes before being served. If you do not warm DIY cookies prior to eating, it will be difficult to inject the cookies. If an oven is not accessible, microwave for 10 seconds and it should do the trick!

DELIVERY AND PICK-UP

We don't offer local delivery yet. Pick-up is at our storefront in Logan Square - 3211 W. Armitage Ave. Chicago, IL 60647. Pick-ups will be scheduled in advance.

TASTING

Schedule a tasting by emailing events@sweetshotcookies.com with "Tasting" in the subject line and your event information:
