BESPOKE TRIATHLON APPAREL

STRENGTH.
ENDURANCE.
PERFORMANCE.

TRI-FIT is an award-winning, market leading triathlon apparel brand.

We create premium triathlon essentials using the latest cutting-edge technology and fabrics sourced from around the world. We are known and loved globally for our clean, modern designs, coupled with functionality and race winning performance.

Dan Evans – *TRI-FIT* Founder

STEP 1

DESIGN
CONSULTATION

A consultation will be booked with one of our award-winning team to discuss your exact requirements.

During this conversation we will discuss which suit you wish to customise, what you want to achieve, as well as your design and colour preferences, plus any sponsors or logos you wish to add.

STEP 2

CONCEPT
PRESENTATION

After the initial design discussion, a series of concepts devised by our team, and based on your requirements, will be presented.

From here we will continue to hone the design elements ensuring that you are 100% happy before proceeding to the next stage of the process.

STEP 3

DESIGN CONCEPT
SIGN OFF

Once we have presented you your dream tri-suit, we will move to sign off.

Here you will be presented with a digital 3D model, along with colour print offs, to make sure the colour on the fabric is exactly as you want it.

Once both you, and our team of designers are happy, we will commission your bespoke suit at our factory.

STEP 4

PRODUCTION &
DELIVERY

Production takes 5-7 weeks depending on the suit, time of year and the intricacies of the design.

Once completed, the finished suit will be sent to us for inspection, before being couriered to you, our valued customer.

The race is then up to you, but at least you will look the business!
