

# Asphalt Easy Fill

A convenient, easy to use crack filler and sealant

Watco Asphalt Easy Fill is a flexible rubberised filler that seals cracks in asphalt, helps protect against damage caused by water ingress and erosion. It can also be used to fill joints and cracks in concrete surfaces. Also bonds to metal, stone and brick. It fits a standard skeleton gun for quick clean repairs.

**Areas of use:**

- Asphalt
- Concrete
- Stone
- Brick

**Features:**

- Easy to use
- Flexible, moves with substrate (+/-5%)
- Remains flexible for years
- Protects against damage from water erosion

# Asphalt Easy Fill

A convenient, easy to use crack filler and sealant

## 1 Surface Preparation

Ensure that all surfaces are clean, dry and free from any contaminants that may cause adhesion problems.

## 2 Application

Cut the tip from the cartridge avoiding damage to the thread. Cut the nozzle at an angle of 45° and screw on to the cartridge. The tube fits a standard skeleton gun.

## 3 Safety

Material Safety Data Sheets are available. In common with all solvent based products, food should be kept away during application and curing.

## 4 Ordering

Available direct from Watco UK Limited and through agents worldwide. All Watco products are sold subject to the Company's Standard Conditions of Sale.

The Company and its representatives are often asked to comment on potential uses of Watco products which differ from those described in the Company's data sheets. Whilst in such cases the Company and its representatives will always try to offer helpful and constructive advice, the Company cannot be held responsible for the results of such uses unless they are specifically confirmed in writing by Watco.
