

Reprotec RTR Rubber Tyre Remover

Description

Reprotec RTR Rubber Tyre Remover is an advanced Rubber Tyre Mark Remover, suitable for cleaning Reprotec flooring systems as well as other hard surfaces including concrete, stainless steel, wood, ceramic, rubber, plastic, vinyl and safety floors.

Reprotec RTR Rubber Tyre Remover is non-toxic and non-hazardous, it is taint-free and has zero VOC's. The material is safe to use in food preparation areas.

Reprotec RTR Rubber Tyre Remover works at the surface/contaminant interface. When dirt adheres to a surface, the surface tension created can resist the efforts of standard cleaning agents to remove it. Active agents break through the surface tension and penetrate to the core of dirt to break the bonds holding the dirt to the surface. The released dirt can then be easily removed by flushing, rinsing or suction leaving surfaces so clean they resist the build-up of fresh dirt. Because more dirt is removed, super-clean surfaces are achieved without the use of biocides.

Supplied ready for use in a 1 litre trigger applicator

Directions for use

- i. For best results, use above 3C.
- ii. Remove as much excess dirt as possible. iii.
Spray the diluted product onto the surface.
- iv. Leave for 1 minute for general cleaning and up to 20 minutes for heavy soiling.
- v. Agitate with brush, cloth or scraper, as necessary. vi.
Wipe clean, or rinse with clean water.

Can be used with floor scrubbing machines and mopping systems.

Packaging

Reprotec RTR Rubber Tyre Remover is supplied in 4x1 and 4x5 litre packs.
