Customizable for you!

**Select your post size**

2 3/8" O.D. or 2 7/8" O.D.

**Choose your strength**

16 gauge to 40 weight

**Choose # of rails**

Rail size is 2 3/8" O.D.

**Select post spacing**

8 ft or 10 ft

**Choose your finish**

-Black Powder Coated -Galvanized

Discover Simplicity

**BULLET FENCE SYSTEMS**

Bullet Fence Systems materials are made from **USA made galvanized steel**. Wood, PVC, and vinyl fences don't compare.

## Common problems

## Design Benefits

- **Strength** - Round steel pipe construction is stronger. With Fence Bullets, fence is thermally broken at each section to allow expansion and contraction. No buckled fences or broken welds.
- **Adjustable** - Adjust or add rails at the height, spacing and number you want.
- **Open Views** - does not limit views like board style fencing. Compact sleek connectors give a clean look
- **Customizable** - Customize your fence with woven wire or chain-link. Choice of common pipe sizes, weights, and finish

Rusting & poor quality welds

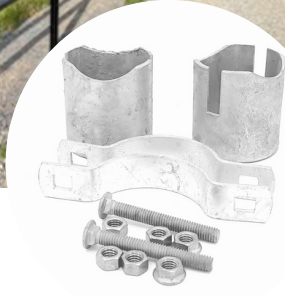

Rotting

Fire

Mold

Splintering

**Value**  
Our pipe fence system typically cost no more than a wood or vinyl fence and about half of welded pipe. Our materials and design are superior leaving you with an easy choice for your rail fence.
