

CONFIRM PRINT SCALE

To get the accurate size measurement print settings must be 100%.
Don't select fit to page. Measure the scale bar above to confirm print is correct.

Step 1

Select a ring you own which fits the finger you intend to wear your new ring on.

Step 2

Place the ring over the nearest matching circles on the right. Match the inside edge of the ring to the circle nearest in size.

Note

If you fall between two sizes it's recommended to select the larger size to ensure a comfortable fit.
