

## RQ VI Collection

The R&Q VI Collection embodies timeless luxury and celebrates the beauty of America's National Tree, the Oak. These beautiful floors are made from Rift & Quarter Sawn White Oak which was domestically sourced from forests in Kentucky and Ohio. Rift & Quarter Sawn is highly regarded for both its straight grain aesthetic and floorboard stability. This collection is further elevated with its six-inch widths and longer lengths. Limited knots and variation of pattern create an elegant minimalist look and feel which is completed with a Smooth Matte American-Made Finish.
