

## inLove Collection

Our inLove Collection offers bespoke services that allow us to create custom flooring locally in Brooklyn, New York. If you can dream it, we can create it, and the possibilities are endless. Any and every aspect of our product can be customized—from the species and grade of wood—to the construction and dimensions of the wood planks. This exciting collection embraces both tradition and innovation, employing time-honored woodworking techniques alongside the most cutting-edge in biochemistry. Art and science meet with the use of reactive color processes: wood smoking (also known as fuming) and reaction-based stains. [Learn more](#)
