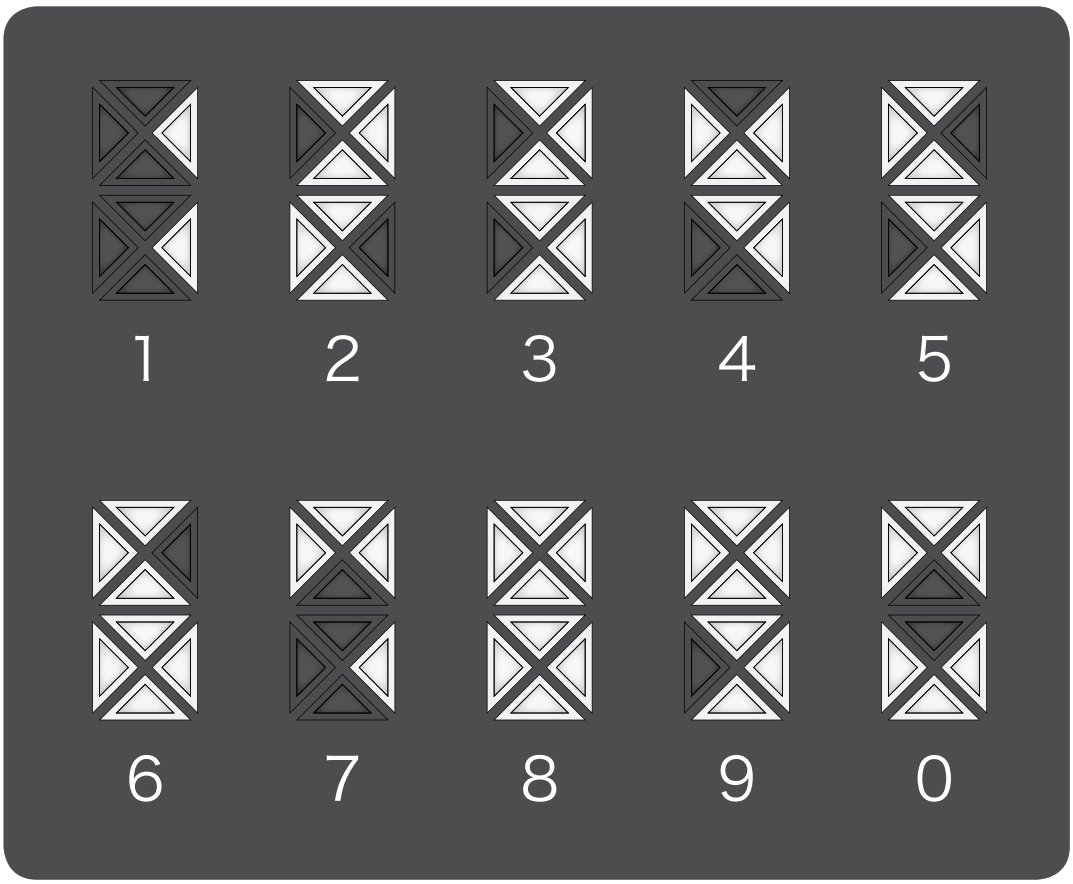
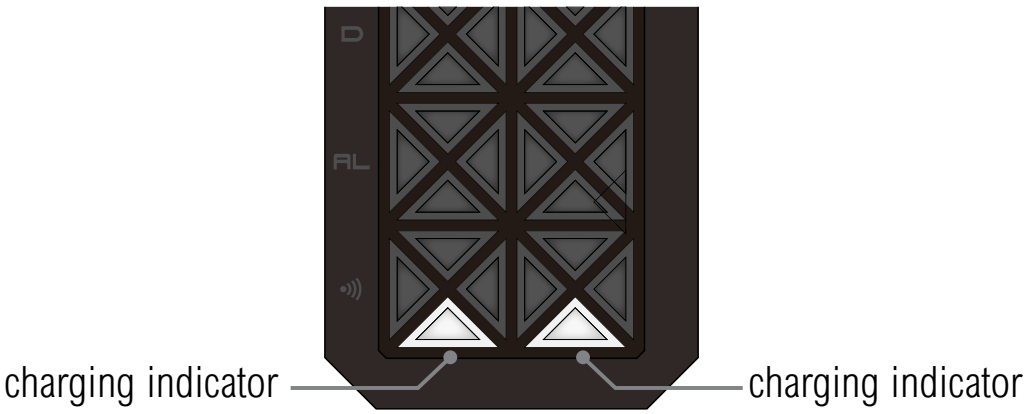
8. Number samples

- This watch displays the time digitally using a combination of LED triangles. It looks cryptic but is as easy to read as a regular digital watch. The numbers used are shown below.



9. How to recharge the battery

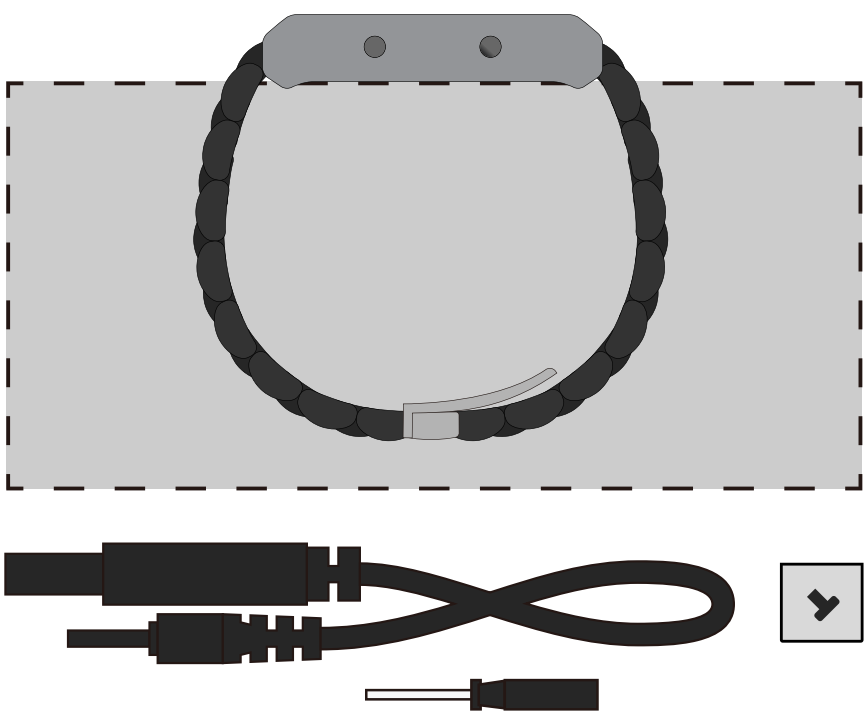
- This watch has a USB rechargeable battery.
- When the lights become dim or do not light up, you should recharge the battery.
- To recharge the battery, unscrew the USB cap using the screw driver provided and connect the USB charging cable to the USB charging jack.
- Connect the charging cable to a power source, e.g. your computer.
- When charging, the LED charging indicator will blink.
- When the charging indicator stops blinking, the battery is 90% charged.
  It is advised that you continue to charge the battery for a full 3.5 hours to ensure the battery is 100% charged.



- It is advised that you use the screw driver provided when opening the USB cap so as not to damage the head of the screw.

10. Items included in the box

- Watch
- USB cable
- Spare USB cap
- Screwdriver
- Instruction Manual



11. User information

I. Battery

- This watch uses an PL301517 rechargeable battery only.
- Battery lifetime will vary depending on use, but is estimated at approximately 300 charges.
- To maximise battery life you should limit the use of the animation.
- The plug standard input voltage for the PL301517 battery is DC3.7V. You should use only the cable provided with the watch when recharging.

II. Warranty

- This watch is covered by a 1 year warranty. This warranty does not cover water damage, accidental damage, neglect or unauthorized repair.

III. Caution

- This watch has limited water resistance. Please do not use the watch in the shower, for swimming or for other water related activities.
