1. How to read the time

- This watch uses an LCD display to show the time.
- It uses a Sound Sensor which causes the display to react to music, or other sounds around you, similar to a graphic equalizer found on audio equipment.
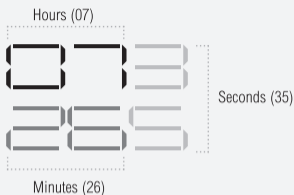

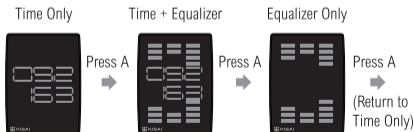

Example 1:
Time Only
09:16:23

Example 2:
Time + Equalizer Mode
Time 05:13:21

• The time display shows Hours, Minutes and Seconds.

Hours (07)

Seconds (35)

Minutes (26)

• The watch uses a 12hr clock cycle (am/pm, not 24hr)

• The default time display shows the time only.
  Press Button A to cycle though the display modes.

Time Only   Time + Equalizer   Equalizer Only

    Press A ➡   Press A ➡   Press A ➡

                                                                                    (Return to
                                                                                    Time Only)

2. Operating the basic functions

I. Turning on the LED lights

- You can illuminate the display for a short time with the LED lights by pressing Button B.

II. How to read the date

- Press Button C to display the date. The date icon indicates that you are in date mode.
- The date is displayed in the same way as the time, with the month in the upper half of the screen and the date in the lower half of the screen and the year on the right.

Example: April 25th 2013

Date Icon

Month

Year

Date

- Press Button C again to return to Time Mode.

Note: The watch will return to Time Mode automatically after 10 seconds.

3. How to set the time and date

- In normal Time Display Mode, press and hold Button C for 3 seconds to enter Time Setting Mode.

  Note: after 10 seconds of inactivity setting mode will deactivate.

- The Setting Icon will appear & the hours will begin flashing.

6. User information

I. Battery

- This watch uses a PL402525 rechargable watch battery.
- The battery is estimated to last about one month on a single charge based on light use of the EQ functions.
- With heavy continuous use of the EQ functions (on all the time) a single charge will last at least 7 hours.
- Battery lifetime will vary depending on use, but is estimated at approximately 300 charges.
- To maximize battery charge you should limit use of the LED lights.

II. Warranty

- This watch is covered by a 1 year warranty. This warranty does not cover water damage, accidental damage, neglect or unauthorized repair.

III. Caution

- This watch is water resistant to 3ATM. Please do not use the watch in the shower, for swimming or for other water related activities.
- Only use the cable provided to recharge this watch.
