3. How to recharge the battery

- This watch has a USB rechargeable battery.
- When the lights become dim or do not light up, you should recharge the battery.
- To recharge the battery, unscrew the USB cap using the screw driver provided and connect the USB charging cable to the USB charging jack.
- Connect the charging cable to a power source, e.g. your computer.
- When charging, the LED charging indicator will blink.
- When the charging indicator stops blinking, the battery is 90% charged.
 It is advised that you continue to charge the battery for a full 3.5 hours to ensure the battery is 100% charged.

PM / Charging indicator

- It is advised that you use the screw driver provided when opening the USB cap so as not to damage the head of the screw.

- Items included in the box:

  - Watch
  - USB cable
  - Spare USB cap
  - Screwdriver
  - Instruction Manual

4. User informations

I. Battery

- This watch uses an LIR 2032 rechargeable battery only.
- The LIR 2032 rechargeable battery is replaceable.
- Battery lifetime will vary depending on use, but is estimated at approximately 300 charges.
- To maximize battery life, turn the animation off.
- The plug standard input voltage for the LIR 2032 battery is DC5V. You should use only the cable provided with the watch when recharging.

II. Warranty

- This watch is covered by a 1 year manufacturers warranty. This warranty does not cover water damage, accidental damage, neglect or unauthorized repair.

III. Caution

- This watch has limited resistance to water. Please do not use the watch in the shower, for swimming or for other water related activities.
