INTRODUCTION

Greetings!

As a leading foodservice company in the region for over four decades, Greenhouse Foodstuff Trading has evolved from importing exclusive and premium Dairy items, Cheese, Bakery & Pastry ingredients, finished products, Grocery, Plant Based food and Chef's equipment to embracing all aspects of the F&B industry and providing exceptional value to stakeholders and trading partners.

The company's growth has been driven by excellence, expertise, and quality products in tandem with a dominant market share for both Foodservice and Retail channels supporting the global chain and meeting the customers need for tailored foodservice solutions so they can curate successful food operations and experiences.

Greenhouse Foodstuff Trading offers hotels, fine dining outlets, casual dining restaurants, caterers, airlines, independent operators, leisure sector and institutional customers the finest products, operational knowledge, tailored support and an unwavering commitment to help partners succeed with value added services. It cultivates a diverse, equitable and inclusive culture inhouse and is committed to making a positive impact across communities it serves.

The company dedicates its success to talented and passionate brand managers, sales teams, customer service officers and the solid logistics crew who are truly committed to the management's vision to offer exceptional service and the vision to expand operations beyond the UAE market to Saudi Arabia, Qatar and Oman via modern and traditional trade.

As industry innovators, Greenhouse Foodstuff Trading's main strength lies in streamlined logistics complemented by state-of-the-art storage facilities and infrastructure to support warehousing and distribution capabilities. The advanced temperature-controlled vehicles and storage facility, full-service stock management and modern distribution ability using AI and digital transformation is designed to meet the growing demands of the local and regional Food & Beverage industry.

Committed to Success

The company dedicates its success to talented and passionate brand managers, sales team, customer service officers and the solid logistics crew who are truly committed to the management's vision to offer exceptional service and the vision to expand operations beyond the UAE market to Saudi Arabia, Qatar and Oman via modern and traditional trade.

Focusing on quality products, timely deliveries, and competitive pricing.

At Greenhouse Foodstuff Trading, the warehouses operate on WMS and are graded A+ by Dubai municipality, food safety department. The company is growing responsibly being accredited by HACCP, ISO 22,000, ISO 14,001, ISO 18,001 and ICV.

Greenhouse Foodstuff Trading has a reputation built on the highest ethical standards of business, complemented by industry-leading staff, quality products and the latest F&B solutions.

Our Pillars

Greenhouse's unique service and added value originates from five pillars forming its market strength.

Embrace Diversity

Endorsing 20+ nationalities

Retail Presence

Strong and sustainable presence at the retail and food service markets

Business Expansion

Structure expansion based on category management

Technical Support

Distribution & Mangement

Dedicated business units serving specific channel, distribution & client categories

Our Key Highlights

- **Initiated the Import** of food categories to the Gulf region: Bakery&Pastry Dairy, Cheese, Grocery,Plant Based.
- Providing product safety variety and **Timely Deliveries** all for optimum quality & added value.
- **Strengthen Partnerships**, generate business growth, and create loyalty customers and brands.
- **Representing and Collaborating** with our principals on exclusive basis of long term strategies.

A hand in a white shirt cuff is holding a large, black, stylized gear. The gear has a central circle and a ring of teeth. The background is a dark blue gradient.

Vision

To become the
TOP OF MIND PARTNER
to all the stakeholders of the
foodservice and retail channels.

Mission

To provide a healthy, friendly
and rewarding environment to
our employees.

To stand as the leader in
importing, marketing and
distributing premium brands
within selected categories.

To become socially responsible
and give back to the community
we live in.

Our Core Values

Integrity • Loyalty • Smartness
Responsible • Energy • Quality

DAIRY

ELLE & VIRE

Elle & Vire has its roots in Normandy (France), a terroir of exception, renowned worldwide for its rich pastures and the quality of its milk. Since 1945, between the rivers of the Elle and the Vire to which the brand owes its name, Elle & Vire has been using its dairyman's know-how to develop high-quality dairy products. Elle & Vire has thus become one of the flagship brands of dairy products worldwide, thanks to its French origin, its differentiated products range specifically developed for overseas markets.

PAPILLON

Papillon was created in 1906 by Paul Alric in the heart of the causses region. The milk is collected from the sheep in the cause region to maintain the same quality year after year. In September for one week, the Papillon bakers come to bake more than 300 rye breads which will ensure the production of the Penicillium Roqueforti that gives the cheese its distinctive flavor.

BEL

If it's one thing the French know, it's cheese. The Bel Group, our parent company, engineered the single-serving portion over 150 years ago in France's Jura region. Thus began a tradition of innovation and a commitment to growth, optimism, and enthusiasm that powers Bel Brands USA's Chicago headquarters and all of our plants across North and South America.

ENTREMONT

The Entremont saga is rooted in Haute-Savoie and begins with story of three brothers for a cheese: the Emmental. The Entremont brothers were on to something when they started their cheese business in 1948!

Their cheese was of excellent quality right from the very beginning of the production of these wheels. Emmental quickly became the dominant cheese on cheese counters, a cheese board essential, and later the cheese to melt in dishes of all kinds. A cheese is born, its story has only just begun...

AMBROSI

Ambrosi was established in 1942 by Ottorino Ambrosi as a butter manufacturing and cheese marketing company. In the early fifties it focused its activity on butter and Parmigiano Reggiano and soon becoming a leader in the sector.

Ambrosi manufactures matures and sells Parmigiano Reggiano and Grana Padano both in entire wheels as well as cut and packaged. It also produces and sells butter, mozzarella, and other fresh cheeses (e.g. ricotta). Ambrosi has a full and complete range of Italian Cheeses and it's one of the few dairy Italian companies recognized in Europe as market leader for both Italian hard cheese and Italian fresh cheese.

OLD AMSTERDAM

The story of Old Amsterdam is a tale of passion and dedication. This special cheese was given the name of Old Amsterdam, the word old relates to themature flavor and to the traditional character of the cheese. After years of perseverance they finally discovered the unique recipe for this mature cheese which is a well-guarded family secret. It was officially introduced to the Netherlands in 1985 with a resounding success in domestic and foreign markets and has won many international prizes.

LOUIS FRANÇOIS

Food Ingredients – Since 1908

More than century of Experience in the service of excellence legacy and a 100% French Know How. LOUIS FRANÇOIS was born in 1882. A self-taught inventor, he developed a passion based on the researches of Louis Pasteur and other well-known scientists at this time. He constructed a laboratory in Paris and founded his company in 1908.

ST. DALFOUR

ST. DALFOUR is a privately-owned firm that it was founded in 1984. The use of concentrated juice to make fruit spread is a ST. DALFOUR innovation inspired by an ancient preserving method. "Made in France", ST. DALFOUR sell their products exclusively under their own brand name to over 70 countries around the world. All the products are of the highest quality, without artificial colouring or preservatives. The range consists of 100% fruit all natural no sugar added.

SOSIO

SALUMIFICIO SOSIO is a company, which has been working in seasoned meats for almost three generations. It was started in the 50's by the Sosio family's butcher shop. The "BRESAOLA DE BAITA" is produced with the choice of loin cut, and an excellent selection of beef leg.

First it is trimmed, then accurately and patiently salted. It is suitable for both children and the elderly, young people and adults. The absence of gluten can be considered a very interesting plus, which makes the Bresaola "De Baita", is recommended for everyone.

Plant Based

KOITA™

PLANT BASED PRODUCTS

NURISHH

At Nurishh, we believe that food builds the strongest bonds and trivializes our differences. We strive to champion a healthier, happier collective living. This is the reason we created a tasty plant-based cheese that will satisfy and nourish everyone around your table. After more than two generations of cheesemaking, the Jouault family discovered their father was intolerant to milk. Not wanting him to miss out on tasty cheese, they developed and pioneered the field of plant-based alternatives to cheese. Bel later acquired the brand and named it Nurishh.

Greenhouse Catering

"All the orders are prepared fresh in-house upon the request and catering to the customer's needs be it healthy, vegan or any other customised requirement".

Greenhouse Catering

Prepared with passion & superior quality ingredients

Catering fresh and flavorful sandwiches, salads, bakery items, Pastries, desserts and everything in between, Greenhouse offers F&B solutions and innovations to coffeehouses, restaurants, hotels, retailers, corporates and more.

Carefully selected from the Greenhouse brand portfolio, the menu is inspired by the latest innovations from around the world in a safe and hygienic venue that conforms to the highest international food safety and quality standards.

Prepared with passion and superior quality ingredients, all orders are prepared fresh in-house, using the latest techniques, and covering all customer's needs be it healthy, high in protein or any other customized requirement.

A still life photograph of various cheeses on a wooden board. The board is set on a dark wooden surface. There are several types of cheese: a wedge of Swiss cheese, a wedge of cheddar, a wedge of blue cheese, and a wedge of brie. There are also some smaller pieces of cheese. A bunch of purple grapes is in the foreground. A small black square dish contains a brown jam or spread. The background is dark and out of focus.

Greenhouse

Cut & Wrap Cheese Solutions

Advantages of our cheese solutions

Innovation in Cheese | Elegant Packaging

Longer Shelf Life | Minimal Wastage

Opportunity for Private Branding

Portion Control

Greenhouse Cut & Wrap Cheese Solutions

To meet the requirements of retailers and foodservice outlets, Greenhouse offers a cheese-cutting and packaging capability for all types of cheese cuts.

With increased interest in artisan cheese, Greenhouse has added customized cut and wrap cheese solutions for clients requesting tailored options ranging from grated and shredded to sliced and cubes shaped cheese using the latest technology of Modified Atmosphere Packaging. Different types of cheese require different packaging depending on the climate of the geographical origins and how the product is matured.

The cost saving and innovative cheese packaging solutions from Greenhouse are robust, aesthetically appealing with elegant packaging, accommodates different cheese shapes and dimensions, helps extend the shelf life of cheese, promotes low wastage and offers an opportunity for private labels.

Greenhouse Innovation Centre

The venue is a source of inspiration and perfect for learning about the latest food technologies and industry standards.

Greenhouse Innovation Centre

The Greenhouse Innovation Centre offers the most innovative and comprehensive culinary training, led by MOF (Meilleur Ouvrier de France) and world-famous chefs who are willing to share the latest industry trends.

Committed to providing the local and regional F&B industry access to a world class culinary platform, The Greenhouse Innovation Centre is dedicated to professionals in the foodservice industry seeking to learn new innovations, techniques and recipes.

The facility is equipped with efficient and modern food processing equipment for chefs in the pastry and bakery world and designed to foster a culture of innovation through the creation, sharing and testing of ideas.
